Dear Speaker Pelosi, Majority Leader Schumer, Leader McConnell and Leader McCarthy,

The undersigned organizations, representing over one million physician and non-physician health care clinicians and the patients they serve, strongly urge Congressional action to prevent the **entire 4.5% reduction to Medicare payment rates** from being implemented on January 1, 2023. This desperately needed relief will help provide financial stability for practices until permanent payment reforms are established.

On top of this nearly 4.5% Medicare Physician Fee Schedule (MPFS) payment cut, medical practices throughout the country are experiencing significant inflationary pressures. Since the MPFS is the only payment system within Medicare lacking an annual inflationary update, clinicians, many of whom are small business owners, contend with a wide range of shifting economic factors — such as staff salaries, building rent, and purchase of essential technology — when determining their ability to provide care to Medicare beneficiaries.

We cannot overstate the importance of Congress stopping the entirety of the upcoming 4.5% reduction. Anything less will result in an across-the-board cut that will further exacerbate the significant financial hardship clinicians are already facing and undermine Medicare's ability to deliver on its promises to seniors and future generations.

Thank you for your consideration.

Sincerely,

Academy of Nutrition and Dietetics
