

List of Measurable Verbs Used to Assess Learning Outcomes

Knowledge Level: The successful student will recognize or recall learned information.

<u>Knowledge Level</u> . The successful student will recognize of recult realined information.		
list	record	underline
state	define	arrange
name	relate	describe
tell	recall	memorize
reproduce	repeat	recognize
<u>Comprehension Level</u> : The successful student will restate or interpret information in their own words.		
explain	describe	report
translate	express	summarize
identify	classify	discuss
restate	locate	compare
discuss	review	illustrate
tell	critique	estimate
reference	intorprot	reiterate
reference	interpret	
Application Level: The successful student will use or apply the learned information.		
apply	sketch	perform
use	solve	respond
practice	construct	role-play
demonstrate	conduct	execute
complete	dramatize	employ
complete	uramatize	
Analysis Level: The successful student will examine the learned information critically.		
analyze	inspect	test
analyze distinguish	inspect categorize	test critique
-	•	critique diagnose
distinguish	categorize	critique
distinguish differentiate	categorize catalogue	critique diagnose
distinguish differentiate experiment calculate	categorize catalogue quantify measure	critique diagnose extrapolate theorize
distinguish differentiate experiment calculate Synthesis Level: The succ	categorize catalogue quantify measure	critique diagnose extrapolate
distinguish differentiate experiment calculate Synthesis Level: The succ develop	categorize catalogue quantify measure cessful student will create revise	critique diagnose extrapolate theorize new models using the learned information. compose
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan	categorize catalogue quantify measure cessful student will create revise formulate	critique diagnose extrapolate theorize new models using the learned information.
distinguish differentiate experiment calculate Synthesis Level: The succ develop	categorize catalogue quantify measure cessful student will create revise	critique diagnose extrapolate theorize new models using the learned information. compose
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan	categorize catalogue quantify measure cessful student will create revise formulate	critique diagnose extrapolate theorize new models using the learned information. compose collect construct prepare
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan build	categorize catalogue quantify measure cessful student will create revise formulate propose	critique diagnose extrapolate theorize new models using the learned information. compose collect construct
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan build create	categorize catalogue quantify measure cessful student will create revise formulate propose establish	critique diagnose extrapolate theorize new models using the learned information. compose collect construct prepare
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan build create design organize	categorize catalogue quantify measure cessful student will create revise formulate propose establish integrate modify	critique diagnose extrapolate theorize new models using the learned information. compose collect construct prepare devise
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan build create design organize	categorize catalogue quantify measure cessful student will create revise formulate propose establish integrate modify	critique diagnose extrapolate theorize new models using the learned information. compose collect construct prepare devise Manage
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan build create design organize Evaluation Level: The succ	categorize catalogue quantify measure cessful student will create revise formulate propose establish integrate modify ccessful student will assess	critique diagnose extrapolate theorize new models using the learned information. compose collect construct prepare devise Manage
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan build create design organize Evaluation Level: The succ review	categorize catalogue quantify measure cessful student will create revise formulate propose establish integrate modify ccessful student will assess appraise	critique diagnose extrapolate theorize new models using the learned information. compose collect construct prepare devise Manage or judge the value of learned information. choose
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan build create design organize Evaluation Level: The succ review justify	categorize catalogue quantify measure cessful student will create revise formulate propose establish integrate modify ccessful student will assess appraise argue	critique diagnose extrapolate theorize new models using the learned information. compose collect construct prepare devise Manage or judge the value of learned information. choose conclude
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan build create design organize Evaluation Level: The succ review justify assess	categorize catalogue quantify measure cessful student will create revise formulate propose establish integrate modify ccessful student will assess appraise argue rate	critique diagnose extrapolate theorize new models using the learned information. compose collect construct prepare devise Manage or judge the value of learned information. choose conclude compare
distinguish differentiate experiment calculate Synthesis Level: The succ develop plan build create design organize Evaluation Level: The succ review justify assess defend	categorize catalogue quantify measure cessful student will create revise formulate propose establish integrate modify cessful student will assess appraise argue rate score	critique diagnose extrapolate theorize new models using the learned information. compose collect construct prepare devise Manage or judge the value of learned information. choose conclude compare evaluate
