

Pre-Conference Expo Day April 30 & Grand Prize Peloton Bike Points

A Pre-Conference Expo Day is scheduled for Friday, April 30, from 11 a.m. to 5:30 p.m. (Eastern Time). This day gives you an opportunity to become acclimated to the virtual platform before attending scientific sessions. Attend the Virtual Exhibit Gallery and meet with over 85 exhibitors and learn more about their latest products and services, including, APA Central exhibits and APA Publishing. Among these exhibitors, look for the Career Fair filter in the Virtual Exhibits Gallery to find exhibitors searching to recruit the best and the brightest for specialized opportunities. There will also be Product Theaters with presentations throughout the day.

Throughout the meeting, attendees are encouraged to engage with exhibitors, participate in additional exhibit events (Product Theaters and Huddle Sessions), view sponsored advertising for more information, attend poster sessions, schedule meetings with exhibitors and network with other attendees.

The engagement on Friday allows you to earn additional points towards the Grand Prize Peloton Bike in addition to what is earned throughout. A leaderboard will track attendees' progress in earning points throughout the meeting.

See [Official Rules](#).

Sessions and visits with exhibitors can be achieved throughout the meeting, but extra points can be awarded on Friday to improve your chances of winning the Grand Prize, so plan now to get a jump on the competition.
