

APA invites you to join its next PCSS-MAT Webinar

Motivational Interviewing for Clinical Practice

Petros Levounis, MD, MA, Rutgers New Jersey School of Medicine

Bachar Arnaout, MD, Yale School of Medicine

Carla Marienfeld, MD, University of California-San Diego

**Free Registration
and CME**

May 9, 2017 — Noon-1 p.m. Eastern

REGISTER NOW

The webinar will provide a clear presentation of Motivational Interviewing that is readily transferable to everyday clinical practice. Motivational Interviewing is a clinical style for engaging patients in treatment, enhancing motivation to reduce substance use, and supporting adherence to recommended behavioral or pharmacological treatments.

The session will present the origins of Motivational Interviewing; describe its fundamental concepts, such as spirit, processes, and core skills; demonstrate the use of Motivational Interviewing; offer practical ways to integrate MI with other psychosocial and pharmacologic approaches; and discuss incorporating Motivational Interviewing as communication style in consultative, administrative, supervisory, and educational settings. Participants will gain a practical foundation of Motivational Interviewing that can be readily applied and further enhanced with practice.

The American Psychiatric Association is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Psychiatric Association designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The PCSS-MAT is a national training and mentoring project developed in response to the prescription opioid misuse epidemic and the availability of new pharmacotherapies to address opioid use disorder. It is a collaboration of: American Academy of Addiction Psychiatry (lead), American Psychiatric Association, American Osteopathic Academy of Addiction Medicine, American Society of Addiction Medicine, Association for Medical Education and Research in Substance Abuse, American College of Emergency Physicians, American College of Physicians, and National Association of Drug Court Professionals. Funding for this initiative was made possible (in part) by Providers' Clinical Support System for Medication Assisted Treatment (grant no. 1U79TI026556) from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.
