# About This Guide

In this book, you will find three sections: Program, New Research and the Exhibits Guide. Use these sections to navigate the 2017 Annual Meeting and experience all the meeting has to offer.

Located within the Program, you will find a description of the various scientific session formats along with a log where you can record your daily attendance for the purpose of obtaining CME credit for your activities. The Program is first organized by day, then by session start time, with formats and sessions listed alphabetically under those times. Individual meeting days and program tracks are color-coded to make navigating the Program simple and easy.

The New Research section lists the posters that will be presented at this meeting, organized numerically by session/day. There is a topic index at the end of the New Research section to assist you in finding the posters most interesting to you.

The Exhibits Guide contains an acknowledgement to exhibitors for sponsorships, a list of the exhibitors and a floor plan of the Exhibit Hall, along with information about the Product Theaters, Therapeutic Updates, Career Fair, and Publishers Book Fair. Use this guide and the included exhibitor and author/presenter indices to navigate the exhibit hall and find precisely the booth you're looking for.

If you have any questions about this book or the scientific program, please feel free to stop by the Education Center, Ballroom 20 Foyer, Upper Level, San Diego Convention Center, and a member of the APA Administration will be happy to assist you. All members of the APA Administration will wear green badges.

Welcome to the Annual Meeting!

# Welcome from the Scientific Program Committee

## Dear Colleagues and Guests,

Welcome to San Diego for the 2017 Annual Meeting of the American Psychiatric Association. The meeting promises to be an exciting venue for education, new experiences and connecting with colleagues.

The theme selected by APA President Dr. Maria A. Oquendo for this meeting is “Prevention Through Partnerships.” This is exceptionally timely and offers attendees a tremendous range of educational opportunities in San Diego. In recent years, prevention has become a focus throughout medicine. The field of psychiatry will be impacted by important developments such as the passage of the 21<sup>st</sup> Century Cures Act. Hopefully, this legislation will help advance the cause of prevention and early identification of mental illness. The growth of integrated care networks and new value-based payment arrangements also presage a focus on early detection. Results from the NIMH-sponsored RAISE (Recovery After Initial Schizophrenia Episode) Study have highlighted the success of programs aiming to provide evidence-based treatment to individuals experiencing a first psychotic episode. Throughout the meeting schedule you will find lectures, symposia and workshops exploring the potential for prevention and early detection and treatment of mental illness.

The Scientific Program Committee has put together more than 400 sessions, 34 courses and numerous innovative learning experiences for this meeting. Susannah Cahalan, whose book, *Brain on Fire*, eloquently tells the story of her experience with autoimmune encephalitis, will speak to us at the end of the Opening Session. Elizabeth Vargas, a well-known reporter, will present the William C. Menninger

Memorial Convocation Lecture and have a Q&A discussion with Dr. Nora D. Volkow, Director, NIDA. We are very pleased to offer several interactive sessions with Drs. Alan F. Schatzberg, Peter D. Kramer, and the new director of the NIHM, Dr. Joshua A. Gordon. We are also excited to have Chef David Bouley join us to talk about the importance of living food in our mental health. Our partner organization from the National Institutes of Health this year is the National Institute on Alcohol Abuse and Alcoholism (NIAAA), and under the direction of its head, Dr. George F. Koob, we will host a series of special programs, including media sessions prepared by NIAAA.

The meeting will continue some of the innovative learning formats from last year and introduce new interactive formats. Look for controversial topic debates, interactive labs and real-time simulators to present novel and fun ways of learning. Plan for a diverse lineup of Distinguished Psychiatrist lectures, Frontiers of Science presentations, presidential symposia, allied organization symposia, research advances, and interactive sessions to showcase the exciting state of our field and offer all who attend the chance to learn something new and valuable.

I encourage you to download and use the APA Meetings App. You can access it at [psychiatry.org/app](http://psychiatry.org/app). The app can help you make the most of your meeting experience: connect with colleagues, get the latest updates, find sessions by speaker and topic, plan your itinerary, and much more.

We hope you enjoy the meeting as much as we enjoyed planning it.

Philip R. Muskin, M.D., M.A.

# Welcome from the APA President

## Dear Colleagues and Guests,

Welcome to the 2017 APA Annual Meeting in San Diego. Leaders in psychiatry from the United States and around the world have gathered here to offer an exciting and informative program for APA members and guests.

This year's theme is "Prevention Through Partnerships." The field of psychiatry is rapidly evolving with new science, new technologies, new systems of care, and new collaborations and partnerships.

One important area of change for the field of psychiatry is the movement toward prevention and wellness. One of the keys to adapting to and thriving in the midst of change is developing strategic partnerships with other disciplines in medicine, with paraprofessionals and with sectors in the community. Working together with outside groups will be key to eventual success. The increasing shift toward integrating the care of psychiatric and other medical conditions offers many opportunities for partnerships leading to prevention or screening, early diagnosis and better treatment. A special training on applying the integrated care approach will be presented four times at the meeting, Saturday through Tuesday mornings at 8:00 a.m. – Noon.

For this year's meeting, APA has partnered with the National Institute on Alcohol Abuse and Alcoholism (NIAAA) to bring attendees a series of sessions on the latest science on diagnosis and treatment. NIAAA Director George F. Koob, Ph.D., will present a lecture on the neurobiology of negative emotional states. Meeting attendees will have the opportunity to meet the new director of the National Institute of Mental Health, Joshua Gordon, M.D., Ph.D., at a town hall meeting on Tuesday morning. This is your chance to ask questions about NIMH programs and priorities.

A Presidential symposium on Wednesday morning will honor the legacy of the late Chester Pierce, M.D., a pioneer in the study of the impacts of race and racism on mental health. The session will feature a panel of leaders on the

interaction of race, racism and mental health.

The program offers a number of interactive and innovative learning experiences, including the Mental Health Innovation Zone, which explores new technologies for psychiatry. Challenge yourself with new ways of thinking and learning with a series of Learning Labs. These interactive roundtable sessions include the treatment lab, a mock deposition, leadership boot camps for residents and fellows and early career academic psychiatrists, and a new medical history mystery theater. There is also a session on Monday that will focus on the use of mobile and web-based technologies to support treatment and recovery.

I want to extend a special thanks to the Scientific Program Committee, chaired by Philip R. Muskin, M.D., for its outstanding work on the program for this year's meeting. The hundreds of sessions with leading experts offer a wealth of opportunities for your professional development.

I'm looking forward to interacting with you at this year's Annual Meeting. My hope is that you will leave the meeting energized and inspired and equipped with a wealth of new knowledge to help you and your colleagues deliver the best care possible.

Maria A. Oquendo, M.D., Ph.D.

# Welcome from the APA CEO and Medical Director

## Dear Colleagues and Guests,

Welcome to San Diego for the 2017 Annual Meeting of the American Psychiatric Association. The meeting offers a rich educational program, featuring the latest scientific research and new advances in clinical practice along with numerous special events and networking opportunities.

Please join me in honoring APA distinguished fellows, distinguished life fellows, international fellows, award winners and others at the Convocation of Distinguished Fellows. This year we are honored to have Elizabeth Vargas, award-winning co-anchor of ABC's 20/20, presenting the William C. Menninger Lecture at the Convocation. The Convocation will take place on Monday, May 22, at 5:30 p.m. at the San Diego Convention Center.

Other award lectures being presented at the meeting include:

- ▶ Simon Bolivar Award — *Eduard Vieta, M.D.*
- ▶ Kun-Po Soo Award — *Albert Yeung, M.D.*
- ▶ George Tarjan Award — *Ramaswamy Viswanathan, M.D., Sc.D.*
- ▶ Manfred S. Guttmacher Award — *Robert L. Sadoff, M.D.\**
- ▶ Alexandra Symonds Award — *Maria A. Oquendo, M.D., Ph.D.*
- ▶ David A. Mrazek Award — *John R. Kelsoe, M.D.*

This is a milestone year for the American Psychiatric Association Foundation as we celebrate its 25th anniversary. The Foundation's annual benefit to support its public education and research initiatives will be held on Saturday, May 20, from 7:00 p.m. to 10:00 p.m. at the San Diego Wine & Culinary Center, mere steps from hotels and the restaurants, bars, and other attractions

of San Diego's lively Gaslamp Quarter. Guests at this ticketed event will enjoy spectacular wine and cocktails on the patio, and world-class cuisine indoors, as well as a program honoring the 2017 recipients of the Awards for Advancing Minority Mental Health.

We're building on the success of last year's educational track for residents, fellows and medical students by offering an even more robust series of special scientific sessions in San Diego this year. The Learning Lab brings exciting, innovative ways to learn to the 2017 Annual Meeting, with the uniquely designed sessions that emphasize team training and roleplaying. MindGames, where teams of residents go head-to-head with each other in a Jeopardy-style competition on patient care, medical knowledge and psychiatric history, is back and is sure to be a popular attraction once again.

If you haven't done so already, I encourage you to download the APA Meetings App for easy access to program information and the latest updates and alerts during the meeting. The app contains a treasure trove of content in a very user-friendly package and is a great way to manage your time and connect with your colleagues during the meeting. Download the app today at [psychiatry.org/app](http://psychiatry.org/app).

If you're on Twitter or Facebook, be sure to share your thoughts and experiences on the meeting by using #APAAM17.

Thank you, and welcome to San Diego!

# Welcome from the San Diego Psychiatric Society

## Dear Colleagues and Guests,

On behalf of the San Diego Psychiatric Society, I would like to welcome you to San Diego. As a district branch of the American Psychiatric Association, our organization seeks to promote well-being, education and advocacy for our patients while being committed to promoting quality psychiatric care to patients in our communities.

As APA members, we are all bound together by our common dedication to the process of lifelong learning, and as you enjoy time spent expanding your knowledge base and interacting with your colleagues from across the globe, I hope you find some time to enjoy our wonderful city.

In 2016, *Money Magazine* named San Diego the number one U.S. travel destination. It is the eighth-largest city in the United States and is known for its nearly perfect year-round weather, which allows residents and visitors a chance to take advantage of the county's nearly 70 miles of coastline in addition to the local mountains and desert areas. Beach communities to explore include Ocean Beach, Pacific Beach, La Jolla, Del Mar, and Solana Beach, each with its own distinctive flavor.

There is a vibrant downtown scene in San Diego's historic Gaslamp Quarter and in the Little Italy neighborhood. Nearby Old Town, San Diego, is the birthplace of the city and is a tourist destination. Wonderful restaurants dot the city and nearby

neighborhoods, and San Diego has become a craft beer destination in recent years and is home to over 100 breweries.

Balboa Park features 17 museums, numerous galleries and performing arts venues, as well as the world-famous San Diego Zoo. The USS Midway Museum showcases a piece of San Diego's distinguished military history and is named one of the top museums in the U.S. by TripAdvisor. The Fleet Science Center and the New Children's Museum are both great for children. The San Diego Wild Animal Park, Sea World and LEGOLAND are local attractions worth seeing.

San Diego is home to several world-class universities, including the University of California, San Diego, San Diego State University and the University of San Diego. In addition, the region is home to more than 1,100 life sciences companies and more than 80 independent and university-affiliated research institutes, including the Scripps Research Institute, the Salk Institute, and the Sanford Burnham Prebys Medical Discovery Institute.

Again, on behalf of the San Diego Psychiatric Society, I wish to extend to you a warm welcome and hope you have a wonderful experience while in town.

Robert Gorney, M.D.

*President, San Diego Psychiatric Society*

All attendees are invited to visit APA Central in the Exhibit Hall to learn how APA provides medical leadership for mind, brain and body. Representatives from the APA are available to answer your questions.

## Not an APA Member?

Discover the value of APA membership. Join onsite through the Rebate Program and save up to \$600. The Rebate Program is open to fully trained psychiatrists, residents and fellows, and international psychiatrists and residents who paid the full-program or resident nonmember Annual Meeting registration fee. Stop by APA Central for more details and to apply.

## Explore PsychPRO

PsychPRO, the APA's mental health clinical data registry, is aimed at

- ▶ helping psychiatrists meet new quality reporting requirements and deliver high-quality care;
- ▶ helping psychiatrists avoid payment penalties and achieve bonuses for meeting CMS quality reporting requirements;
- ▶ reducing the burden of submitting Performance-in-Practice data and obtaining ABPN MOC Part IV credit; and
- ▶ advancing the research needs of the profession.

Stop by to learn about this new member benefit and how you can participate.

## APA Foundation

The APA Foundation has two goals: 1) support APA members through grants, fellowships and awards; and 2) embed programs across the nation that reduce stigma and foster early identification and treatment for mental illnesses. This means that the APA Foundation is *your* foundation and one of the strongest public outreach forums for mental health in the country. Learn about programs that are making a difference in our nation's most pressing mental health issues and make a donation to invest in the future of psychiatry.

## APAPAC & Congressional Advocacy Network

Together, we're making a difference to boost psychiatry, evidence-based treatments, reimbursement, and patient care. Members can get involved through the

American Psychiatric Association Political Action Committee (APAPAC) and the Congressional Advocacy Network (CAN). APAPAC identifies and makes political contributions to candidates' campaigns for federal office who are supportive of mental health issues affecting our specialty and our patients, through the generous contributions of members. The CAN helps to develop, train and energize a national network of psychiatrists committed to building personal relationships with members of Congress to help educate them on mental health issues and the profession of psychiatry. Please stop by APA Central to learn how you can get involved.

## APA JobCentral

Looking for your next career move, or need to make a hire? Visit APA JobCentral located in APA Central to discover available jobs across the country or post a position. A representative will be available to assist you with the user-friendly system. Using the Event Connection tool, candidates and employers can flag their resume and/or posting to show their attendance at this year's meeting. Be sure to stop by and pick up a copy of the 2017 APA JobCentral Recruitment Guide. Visit us online at [jobs.psychiatry.org](http://jobs.psychiatry.org).

You will need the user name and password provided in your registration confirmation email to access the evaluation and obtain your certificate. **Certificates will not be issued after August 24.**

## Educational Objectives

By participating in this meeting, you will

- ▶ describe new research findings in psychiatry and neuroscience and how they may impact practice;
- ▶ apply quality improvement strategies to improve clinical care;
- ▶ provide culturally competent care for diverse populations;
- ▶ describe the utility of psychotherapeutic and pharmacological treatment options;
- ▶ integrate knowledge of current psychiatry into discussions with patients; and
- ▶ identify barriers to care, including health service delivery issues.

## Accreditation

The APA is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The APA designates this live activity for a maximum of *40 AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Unless otherwise specified, scientific sessions on the Annual Meeting program meet the criteria for *AMA PRA Category 1 Credit™*. Sessions in the following program formats are designated as Category 1: the **“advances in...” series, case conferences, courses and master courses, FOCUS Live!, forums, lectures, symposia and presidential symposia, rapid-fire talks, interactive sessions, learning lab sessions, EduTours, and workshops and media workshops.**

**Poster sessions, Convocation, the Opening Session, and events in the Mental Health Innovation Zone are NOT designated for *AMA PRA Category 1 Credit™*.**

**Please note that the scientific program schedule is subject to change. Please see the *APA Daily* or the *APA Meetings App* for details on changes to the scientific program.**

## Attendance

Scientific sessions are open to all Annual Meeting registrants with the exception of case conferences, which are open to APA members only. Courses and master courses require a ticket and an additional fee.

To document CME credit earned at the Annual Meeting, participants should maintain a list of sessions they attend. Credit is earned on an hour-for-hour basis. A daily attendance log is provided in this book for tracking your sessions and credits.

## Scientific Session Capacity Guidelines

If overcrowding occurs in a scientific session, we ask for your assistance in abiding by the following guidelines so that all in attendance can benefit:

- ▶ Take a seat as close to the front of the room as possible.
- ▶ Move to the center of the row and fill all seats so that chairs are available near the aisles for additional attendees.
- ▶ Don't stand or sit in the aisles or lean against walls. The Fire Marshall may shut down an overcrowded session; therefore, please either find a seat or choose another session to attend.

# General Information

## Audio and Visual Reproduction Policies

Registrants are not permitted to photograph or video record any session, as the intrusive nature of recording may be disruptive. This includes photographs taken with cell phone cameras. Audio recording is permitted for personal use only. Registrants are welcome to use their own small, portable audio recorders to record any session except case conferences or unless prohibited by the presenters. Larger professional tape recorders are not permitted except for use by registered members of the working press in accordance with APA press policies. Media will be identified with silver badges, and approved equipment will be identified with APA Newsroom stickers. The APA has authorized a professional taping firm, which will be clearly identified, to record sessions.

## Wi-Fi

Attendees will have free wireless access in all public spaces and meeting rooms.

There is also free wireless in the two APA Cafés (Exhibit Halls A-C, Ground Level, open during exhibit hours), which also include free coffee and charging stations for laptops, cell phones and other devices. The Cafés are supported by Takeda Pharmaceuticals U.S.A., Inc. & Lundbeck Inc.

# Disclosure Index

## American Psychiatric Association Continuing Medical Education Policy on Full Disclosure

For all program planners and presenters at CME activities, the American Psychiatric Association requires disclosure of all relevant financial relationships with any commercial interest in any amount occurring within the past 12 months, including those of spouse/partner. A commercial interest is an entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients. Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria for promotional speakers' bureau, ownership interest, or other financial benefit. An "affiliation" may include holding a position on an advisory committee, speakers' bureau, or some other role or benefit to a supporting organization.

In compliance with the ACCME's Standards for Commercial Support, the APA has a management of conflict (MCI) process for all CME activities. This process ensures that all conflicts of interest are identified, managed and resolved prior to the educational activity. Additionally, the prospective audience must be informed of the presenters' or program planners' affiliations with every commercial interest by an acknowledgment in the printed program and verbal or visual disclosure to participants at the

session (disclosure by slide is required if audiovisual equipment is used for the presentation). Disclosing to learners the relevant financial relationships that were present and resolved assists learners in assessing the potential for bias in the information that is presented. The APA also requires verbal disclosure of discussion of unlabeled uses of a commercial product or investigational use of a product not yet approved for this purpose.

The presenters and planners on the following pages indicated that either they or a spouse/partner have a financial interest or other affiliation with a commercial entity producing, marketing, re-selling or distributing health care goods or services consumed by or used on patients; the company name and affiliation is also listed. Providers of clinical service directly to patients are not considered to be commercial interests. The second group of presenters and planners indicated neither they nor a spouse/partner have any relationship to disclose.

All presenters and planners must complete a disclosure in order to participate in an APA CME activity. This disclosure listing includes both the presenters and planners of the Scientific Program and New Research Poster Sessions.

## Order APA Annual Meeting On Demand and Save \$1,000!

Special offer ends May 24, 2017

Maximize your investment in attending the Annual Meeting with APA Annual Meeting On Demand. Watch sessions you missed, or revisit sessions which you participated in. Get access to approximately 350 hours<sup>1</sup> of presentations within 24 hours of the live presentation.

New this year, On Demand includes access to iPosters, an online portal of scientific posters presented during this year's annual meeting.

### Features of APA Annual Meeting On Demand:

**Watch like you're there in person!** By combining slides with synchronized audio, our technology re-creates the live session experience.

**Learn at your desk or on the go!** Watch presentations on a computer, a tablet or even on your smart phone! Start watching on one device, and pick up exactly where you left off on another.

**Earn credits and satisfy your requirements.** Simply watch a session and then click on the CME Test button. Earning credits is easy, fast and convenient.

**Listen while you learn.** MP3 audio files are easily loaded onto your favorite MP3 player, so you can listen to sessions while on-the-go.

**No internet connection? No problem!** A portable USB drive<sup>2</sup> lets you access your sessions even when an internet connection isn't available.

# Mental Health INNOVATION ZONE

An American Psychiatric Association Initiative

To address the ever-changing landscape in technology in relation to mental health services, the APA is hosting the very first Mental Health Innovation Zone as part of the Annual Meeting experience. The Innovation Zone will be available to all Annual Meeting participants and will feature a curated offering of **new ideas, technology, and networking opportunities**. Attendees will have an opportunity to try first-hand virtual reality, participate in a tiny Sumo bot competition, learn about digital medicine, entrepreneurship, and more.

Use the **#APAAM17** hashtag or **#MHIZ** to stay connected throughout the meeting.

# Format Descriptions

## Advances in Medicine

These include sessions designed to provide psychiatrists with the latest in clinical developments in other areas of medicine. The intent is to give participants an update from a physician in a particular specialty. These sessions will help participants keep pace with the rapidly expanding knowledge base and technology in various branches of medicine.

## Advances in Psychiatry

These sessions are intended to highlight important new advances occurring in the field of psychiatry involving selected disorders or treatments. Some of these sessions are chaired by editors of recent textbooks published by American Psychiatric Association Publishing and feature selected chapter authors from these texts. The books discussed at these sessions may be purchased onsite and online at the APA Bookstore.

## Advances in Research

These sessions are presented by leading clinical researchers who will present the latest developments in research.

## Case Conferences

During these 90-minute sessions, clinical material is presented by videotape or the treating therapist. One or more experts then discuss the case. These sessions are open to APA members only.

## Courses/Master Courses

Courses provide enriched learning experiences that actively involve participants and include the opportunity for informal exchange with the faculty. Offered in four-hour (half-day), six-hour (full-day) and eight-hour (full-day) sessions, courses either review basic concepts in a special subject area or present advanced material on a circumscribed topic. Participants must purchase tickets to attend.

## FOCUS Live

These 90-minute sessions allow participants to test their knowledge using an interactive audience response system (ARS). Experts, who served as guest editors of *FOCUS*, will lead lively multiple-choice question-based discussions, and the audience will enter their answers with their mobile devices. Results are instantly tallied and projected on the screen, providing participants with immediate feedback. Attendees are expected to bring their own devices for use during the session. Participants are eligible to earn MOC credit.

## Forums

Forums are flexible 90-minute to two-hour presentations that afford participants the opportunity to highlight and select timely topics that are of interest to psychiatrists. Speakers and panel members are chosen for their expertise and leadership in the field.

## Interactive Sessions

This 90-minute format allows small groups to meet informally with selected experts in psychiatry to discuss topics chosen by the expert, to obtain consultations around problems in research from senior researchers, or to use clinical material offered by the participants and hear clinically-based seminars presented by outstanding educators. Some of these are reserved for residents only. These sessions are limited to a set number of attendees on a first-come, first-served basis.

## Learning Lab

The Learning Lab introduces an exciting new way to learn at the Annual Meeting. Each session in the Learning Lab transforms learning through collaboration, rich discussion around issues impacting psychiatry, and hands-on learning.

# Format Descriptions

## Lectures

Lectures feature a small number of distinguished speakers discussing scientific and cultural topics, many of which will extend our understanding beyond the usual limits of clinical psychiatry. The Scientific Program Committee invites lecturers. Many award recipients, selected by the various APA award boards, also present lectures at the meeting.

## Poster Sessions

This format allows for presentations of very recent findings. Posters are visual, self-explanatory presentations offered in four categories: International, Medical Student/Competition, New Research, and Young Investigators' New Research.

## Rapid-Fire Talks

Formerly scientific and clinical reports, rapid-fire talks are oral presentations of papers prepared for submission before publication. Each 90-minute session contains two to four separate oral presentations grouped by topic, with audience discussion following each presentation.

## Symposia

Symposia are three-hour sessions consisting of four to six thematically-linked presentations that focus on a specific topic relevant to clinical psychiatry. This format is designed to provide comprehensive treatment of a topic or discussion of the topic from several points of view and stimulate discussion with the audience.

## Workshops

Workshops are 90-minute sessions that typically involve brief presentations from individual panel members followed by the opportunity for lively and informative discussion. This format provides for substantial audience participation and is highly interactive.

## Media Workshops

Media Workshops are three-hour sessions in which a feature-length film is shown and discussed.

# Learning Labs

The Learning Lab introduces an exciting new way to learn at the APA Annual Meeting. Every session in the Learning Lab transforms learning through collaboration, rich discussion around issues impacting psychiatry, and hands-on learning. Sessions include a mock deposition, debate sessions, a medical history mystery lab, a resident leadership boot camp, and much more.

Attendees who bring their own devices to the Learning Lab will get the most out of this experience. To connect to Learning Lab presentations, click the FXP Touch icon under the session in the APA Meetings App or type the session key, displayed at the top of the screen at the start of each Learning Lab session, into your web browser.

## Bios

**Lee Goldman** is Harold and Margaret Hatch Professor, dean of health

sciences and medicine, and chief executive of Columbia University Medical Center. He developed the “Goldman In-

dex” of cardiac risk for noncardiac surgery and the “Goldman Criteria” to triage patients with chest pain and co-developed the hospitalist model. He is a member of the National Academy of Medicine, editor of *Goldman-Cecil Medicine* and author of *Too Much of a Good Thing: How Four Key Survival Traits Are Now Killing Us*.

**George F. Koob, Ph.D.**, is an internationally recognized expert on alcohol

and stress and the neurobiology of alcohol and drug addiction. He has been director of the National Institute on Alcohol Abuse

and Alcoholism (NIAAA) since 2014. Dr. Koob began his career studying the neurobiology of emotion, particularly how the brain processes reward and stress. His contributions advanced our understanding of the anatomical connections of emotional systems and the neurochemistry of emotional function.

**Charles B. Nemeroff, M.D., Ph.D.**, is the Leonard M. Miller Professor, chair-

man of the Department of Psychiatry and Behavioral Sciences and clinical director of the Center on Aging at the University

of Miami Miller School of Medicine in Miami, Florida. He received his M.D. and Ph.D. (Neurobiology) from the University of North Carolina School of Medicine in Chapel Hill, North Carolina. He has received a number of research and education awards, including the Kempf Award in Psychobiology, the Samuel Hibbs Award, the Research Mentoring Award, the Judson Marmor Award, and the Vestermark Award from the APA the Mood Disorders Award, the Bowis Award and the Dean Award from the ACP; and the Julius Axelrod Award for mentoring from the ACNP. He was elected to the Institute of Medicine (now the National Academy of Medicine) of the National Academy of Sciences in 2002. His research is currently supported by grants from the NIH.

**Philippe Courtet** is professor of psychiatry at the University of Montpellier and head of the Department of Emergency and Post-Acute Care Psychiatry at the Academic Hospital,

Montpellier, France. He leads a research group “vulnerability of suicidal behavior” in the INSERM Unit 1061. His areas of interest involve vulnerability to suicidal behavior, focusing on brain imaging and social pain. He is now implementing projects using web-based tools for assessing and managing suicidal patients.

**Dwight L. Evans, M.D.**, is the Roehrhoff Rickels Professor of Psychiatry and professor of psychiatry, medicine, and neuroscience at the Perelman School of Medicine of the University of Pennsylvania.

He is director of the Penn Mental Health AIDS Research Center and the former Ruth Meltzer Professor, chair of the Department of Psychiatry at the Perelman School of Medicine and psychiatrist-in-chief for the University of Pennsylvania Health System. He has focused his research on the medical aspects of psychiatry and the psychiatric aspects of medicine and has investigated how stress and depression affect the human body, specifically the immune system. His translational research focuses on the mechanistic role of serotonin, glucocorticoid and neuropeptide pathways on neuroimmune function in mood disorders and medical illness.

**Erkki T. Isometsä, M.D., Ph.D.**, is Professor of Psychiatry at the University of Helsinki, Finland. He started his research career in the National Suicide Prevention Project in Finland. Since

then, he has worked on numerous studies focusing on risk factors for suicidal behavior and clinical epidemiology of unipolar and bipolar mood disorders. Current work is focusing also on neurocognition and emotional processing, experience sampling and digital phenotyping of mood disorders and suicidal behavior.

**J. John Mann** is The Paul Janssen Professor of Translational Neuroscience (in psychiatry and in radiology) at Columbia University and director of the Molecular Imaging and Neuropathology Division in the Department of Psychiatry at New York State Psychiatric Institute. He is past president of the Society of Biological Psychiatry, the International Academy of Suicide Research and the American Foundation for Suicide Prevention. He employs functional brain imaging, neurochemistry and molecular genetics to probe the causes of depression and suicide and has published over 600 peer-reviewed papers and edited 11 books. He treats mood disorders in private practice.

then, he has worked on numerous studies focusing on risk factors for suicidal behavior and clinical epidemiology of unipolar and bipolar mood disorders. Current work is focusing also on neurocognition and emotional processing, experience sampling and digital phenotyping of mood disorders and suicidal behavior.

**Konrad Michel, M.D.**, professor emeritus of psychiatry at the University Hospital of Psychiatry in Bern, Switzerland, is a psychiatrist/psychotherapist/researcher with an active clinical private

practice. Dr. Michel collaborated on the WHO/EURO Multicenter Study on Suicidal Behavior, and he is the founder of the biennial Aeschi Conferences, which have grown into an international forum for sharing cutting-edge developments in therapies for suicidality. Together with David A. Jobes, Ph.D., he edited an international multi-author volume (*Building a Therapeutic Alliance With the Suicidal Patient*; APA Books, 2011) for health professionals dealing with suicidal patients, with a major focus on the various aspects of the therapeutic relationship with the suicidal patient.

**Dr. Maryland Pao, M.D.**, is the clinical director and deputy scientific director of the National Institutes of Health Intramural Research Program at the National Institutes of Health.

She serves as chief of the Psychiatry Consultation Liaison Service in the Hatfield Clinical Research Center. Her core research interests are in the complex interactions between medical and psychiatric symptoms in pediatric oncology, pediatric HIV and other primary immunodeficiencies and in the impact of these diseases on a person’s development. She studies distress and its correlates in medically ill children, including suicidal thoughts and behaviors.

## Bios

**Robert (Bob) Sadoff, M.D.**, received his B.A./B.S. and his M.D. from the

University of Minnesota. He interned at the Veterans Hospital in Los Angeles, CA, and completed his residency in psychiatry

at UCLA in 1963 with an M.S. degree in psychiatry. He then entered the U.S. Army at Fort Dix, NJ, and attended Temple University Law School, where he served as a fellow in forensic psychiatry in 1966. In 1972, he began to teach at the Villanova Law School and the University of Pennsylvania School of Medicine, where he established the current program in forensic psychiatry, including a weekly seminar and a formal fellowship program. The University of Pennsylvania created the title of Robert L. Sadoff Professor of Forensic Psychiatry at the Perelman School of Medicine in his honor. Dr. Sadoff has received two previous Manfred S. Guttmacher Awards, as well as the Isaac Ray Award. *Dr. Sadoff passed away on April, 17, 2017.*

**Michael Sharpe, M.D.**, is professor of psychological medicine at the

University of Oxford, UK. His research has focused on how to integrate psychiatric and medical care for people

with chronic medical illnesses, especially cancer. He was UK Royal College of Psychiatrists "Psychiatric Academic of the Year" in 2009 and "Psychiatrist of the Year" in 2014. He was given the Don R. Lipsett award for achievement in integrated care by the American Academy of Psychosomatic Medicine (APM) in 2015 and the Allison Creed award by the European Association of Psychosomatic Medicine (EAPM) in 2016.

**Rajita Sinha, Ph.D.**, is the Foundations Fund Endowed Professor in Psychiatry

and Neuroscience at the Yale University School of Medicine. She is a clinical psychologist and neuroscientist, chief of

the psychology section in psychiatry, and co-director of education for the Yale Center for Clinical Investigation. She is the founding director of the Yale Interdisciplinary Stress Center, which focuses on stress and self-control mechanisms that promote neuropsychiatric diseases.

**Eduard Vieta** is professor of psychiatry at the University of Barcelona and

chair of the Department of Psychiatry and Psychology at the Hospital Clinic, where he also leads the Bipolar Disorders

Program in Barcelona, Catalonia, Spain. His unit is one of the world-wide leaders in clinical care, teaching and research on bipolar disorder. Dr. Vieta is the current scientific director of the Spanish Research Network on Mental Health (CIBERSAM). He has received the Aristotle Award (2005), the Mogens Schou Award (2007), the Strategic Research Award of the Spanish Society of Biological Psychiatry (2009), the Official College of Physicians Award to Professional Excellence (2011), the Colvin Price Award on Outstanding Achievement in Mood Disorders Research by the Brain and Behaviour Research Foundation (2012), and the Clinical Neuroscience Lilly Award by the International College of Neuropsychopharmacology (CINP, 2014). He has authored more than 700 original articles, 400 book chapters and 37 books. He is an APA international fellow and an advocate for Hispanics, minorities and human rights.

**Prof. Gil Zalsman, M.D., M.H.A.**, graduated from the Hebrew University and

Hadassah Medical School in Jerusalem, Israel. He completed his psychiatry residency at the Geha

Mental Health Center and Tel Aviv University and the child psychiatry residency at Geha and Yale Child Study Center at Yale University. His academic research focuses on gene-environment interactions in childhood depression and suicidal behavior and other psychiatric disorders in adolescence. Currently he is the CEO and medical director of Geha Mental Health Center near Tel Aviv.

Introduction of Susannah Cahalan

*Maria A. Oquendo, M.D., Ph.D.*

## Special Lecture by Susannah Cahalan

Susannah Cahalan is the New York Times bestselling author of *Brain on Fire: My Month of Madness*. She serves as a book reviewer at the New York Post and is working on a new book that delves into the modern history of psychiatry, *The Committed*, due out in 2018. Her award-winning work has appeared in *Psychology Today*, *Scientific American*, *Elle*, *BBC Focus Magazine*, and *Biological Psychiatry*. She has been featured on a number of radio and television shows, including The Today Show, The Katie Couric Show, and NPR's Fresh Air. She received a Yale Poynter fellowship in journalism and was Northeastern's 12th Annual Hanson Memorial Lecturer in 2016. In 2009, she was honored with the Silurian Award of Excellence for her article "My Mysterious Lost Month of Madness," on which *Brain on Fire* is based, and in 2012 received the Books for a Better Life Award for First Book.

Cahalan was a healthy 24-year-old at the onset of her career as a reporter for the *New York Post* when she began to experience symptoms including extreme paranoia and erratic behavior, making her question if pressures from her new job or relationship were too great. Weeks later, she awoke strapped to a hospital bed, under guard and unable to move or speak and her medical records—from a month-long hospital stay of which she has no memory—showed wildly uncharacteristic psychosis, violence and dangerous instability.

Cahalan's memoir *Brain on Fire* chronicles the swift path of her illness and the lucky, last-minute intervention led by one of the few doctors capable of saving her life. As weeks ticked by, Cahalan moved inexplicably from violence to catatonia; \$1 million worth of blood tests and brain scans revealed nothing. The exhausted doctors were ready to commit her to the psychiatric ward, in effect condemning her to a lifetime of institutions, or death, until Dr. Souhel Najjar—nicknamed Dr. House—joined Cahalan's team. He asked Cahalan to draw one simple sketch, which became key to diagnosing her with a newly discovered autoimmune disease in which her body was attacking her brain, an illness now thought to be the cause of "demonic possessions" throughout history.

Cahalan lectures widely about her condition. She is a board member of the nonprofit organization the Autoimmune Encephalitis Alliance and works as an international ambassador for the UK's Encephalitis Society. *Brain on Fire* has been adapted into a feature film starring Chloe Grace Moretz and produced by Charlize Theron, scheduled for wide release in 2017.

Cahalan lives in Brooklyn with her husband and dog.

**Chef David Bouley** studied at the Sorbonne and worked with some

of Europe's most acclaimed chefs, including Roger Vergé, Paul Bocuse, Joel Robuchon, Gaston Lenôtre,

and Frédy Girardet. Chef Bouley has studied intensively the health benefits of Japanese cuisine and culture. He has seen tremendous success infusing Japanese cuisine in French technique. His desire to inspire everyone to have a living pantry in their own home solidifies his dedication to the art of dining. In his illustrious over-30-year career, Chef Bouley has cooked for everyone from kings and queens to the average Joe, and each and every person has left his dining room or event having had a meal they remember for the rest of their lives.

**Barry K. Herman, M.D., M.M.M.**, has had an extensive career in psychiatric

administration and management. He is currently senior vice president, head of medical affairs, at Ironshore Pharmaceuticals.

He is past president and on the executive council of the American Association of Psychiatric Administrators (AAPA). He is a representative to both the APA and AACAP assemblies. He is the author of over 100 scientific abstracts and publications.

**John R. Kelsoe, M.D.**, graduated from medical school at the University of

Alabama, Birmingham, in 1981. He completed internship training at Washington University in St. Louis and

psychiatry residency at UCSD. He then went to the National Institute of Mental Health in Bethesda, Maryland, for four years and returned to San Diego to join the Department of Psychiatry faculty in 1989. Dr. Kelsoe's longstanding research focus has been the genetics of bipolar disorder and lithium response. Dr. Kelsoe is presently the director of the Laboratory of Psychiatric Genomics and a member of the UCSD Institute for Genomic Medicine. Dr. Kelsoe directs the Bipolar Genome Study (BiGS), which is conducting whole genome sequencing studies of bipolar families. He also co-directs the Psychiatric GWAS Consortium for Bipolar Disorder (PGC-BD), which is an international collaborative effort designed to identify genes for bipolar disorder in a sample of over 10,000 patients.

**Sandra Sexson, M.D.**, is a leader in psychiatric education, having served

in numerous national and international roles. Leadership positions include chair of the APA's Council on Medical

Education and Lifelong Learning, the ACP's PRITE and PIPE Commissions, the ACAGME's Psychiatry RRC, the Subcommittee on the Post-Pediatric Portal Program, and the AACAP's Training and Education Committee and Lifelong Learning Committee. She served as president of AADPRT, editor of PRITE and founding editor of CHILD PRITE, ABPN team leader for CAP as well as senior examiner in both psychiatry and CAP, and on ABPN general and CAP question-writing committees. More recently, she has been involved in ACGME International work both as a consultant and now as a member of the International Medicine RRC. Dr. Sexson has published articles on various topics related to psychiatric education in *Academic Psychiatry* and other venues.

**Ramaswamy Viswanathan, M.D., Sc.D.**, received his medical degree

from Madras Medical College, India, and after research training, a doctor of medical science degree from SUNY Downstate

Medical Center. He has been Board-certified in internal medicine, psychiatry and four subspecialties. He is the director of consultation-liaison psychiatry at SUNY Downstate Medical Center. His research has involved physician-patient communication, how physicians resolve ethical dilemmas, and the relationship of psychosocial factors to treatment adherence in gynecologic oncology, sickle cell disease and HIV.

## Vice Admiral Raquel C. Bono

Vice Admiral Raquel C. Bono is director of the Defense Health Agency (DHA), Defense Health Headquarters, Falls Church, VA. She leads a joint, integrated combat support agency enabling the Army, Navy, Air Force, and Marine Corps medical services to provide a medically ready force and ready medical force to combatant commands in both peacetime and wartime. In support of an integrated, affordable and high quality military health service, the DHA directs the execution of ten joint shared services to include the health plan (TRICARE), pharmacy, health information technology, research and acquisition, education and training, public health, medical logistics, facility management, budget resource management, and contracting. The DHA administers the TRICARE Health Plan, providing worldwide medical, dental and pharmacy programs to more than 9.4 million uniformed service members, retirees and their families.

Commissioned in June 1979, Vice Admiral Bono obtained her baccalaureate degree from the University of Texas at Austin and attended medical school at Texas Tech University. She completed a surgical internship and a general surgery residency at Naval Medical Center Portsmouth and a trauma and critical care fellowship at the Eastern Virginia Graduate School of Medicine in Norfolk.

Shortly after training, Bono saw duty in Operations Desert Shield and Desert Storm as head, casualty receiving, Fleet Hospital Five, in Saudi Arabia from August 1990 to March 1991. Upon returning, she was stationed at Naval Medical Center Portsmouth as a surgeon in the General Surgery department, surgical intensivist in the Medical/Surgical Intensive Care Unit, and attending surgeon at the Burn Trauma Unit at Sentara Norfolk General Hospital. Her various appointed duties included division head of Trauma, head of the Ambulatory Procedures Department (APD), chair of the Laboratory Animal Care and Use Committee, assistant head of the Clinical Investigations and Research department, chair of the Medical Records Committee, and command intern coordinator. She has also served as the specialty leader for Intern Matters to the Surgeon General of the Navy.

In September 1999, she was assigned as the director of Restorative Care at the National Naval Medical Center in Bethesda, Maryland, followed by assignment to the Bureau of Medicine and Surgery from September 2001 to December 2002 as the Medical Corps career planning officer for the chief of the Medical Corps. She returned to the National Naval Medical Center in January 2003 as director for Medical-Surgical Services.

From August 2004 through August 2005, she served as the executive assistant to the 35th Navy Surgeon General and chief, Bureau of Medicine and Surgery. Following that, she reported to Naval Hospital Jacksonville, Florida, as the commanding officer from August 2005 to August 2008. She then served as the chief of staff, deputy director, TRICARE Management Activity (TMA) of the Office of the Assistant Secretary of Defense, Health Affairs (OASD(HA)) from September 2008 to June 2010. She later served as deputy director, Medical Resources, Plans and Policy (N093), chief of Naval Operations. From November 2011 to June 2013, she served as the command surgeon, U.S. Pacific Command, Camp H.M. Smith, Hawaii. From July 2013 to September 2013, she served as acting commander, Joint Task Force National Capital Region Medical. From September 2013 to October 2015, she served as director, National Capital Region Medical Directorate of the Defense Health Agency, and as the 11th Chief, Navy Medical Corps. She currently serves as director, Defense Health Agency.

In addition to being a diplomat of the American Board of Surgery, Bono is a fellow of the American College of Surgeons and has an executive MBA from the Carson College of Business at Washington State University. Her personal decorations include Defense Superior Service Medal (three), Legion of Merit Medal (four), Meritorious Service Medal (two), and the Navy and Marine Corps Commendation medal (two).

## The William C. Menninger Memorial Convocation Lecture

### ***“Overcoming Anxiety: A Private Struggle, a Public Recovery”***

Established in 1972, this lecture honors the late William C. Menninger, M.D., President of APA 1948–49, who brought to the association a formalized Convocation of Fellows, first held in 1956.

## **Elizabeth Vargas**

### ***Award-winning ABC News Anchor and Correspondent***

As an award-winning anchor and correspondent, Elizabeth Vargas has traveled the world covering breaking news stories, reporting in-depth investigations and conducting newsmaker interviews. Currently the co-anchor of ABC's *20/20* with David Muir, Vargas was credited by *The New York Times* for reinvigorating the newsmagazine format with her “intellectually brave” reporting. During the historic Iraqi elections in December 2005, she reported extensively for *World News Tonight* from Baghdad on both civilian life in Iraq and American military involvement there. She has interviewed leaders from around the world, including President Bush from the oval office in the White House. Vargas has also anchored *ABC News* coverage of live, breaking news stories, including the deaths of President Ronald Reagan and John F. Kennedy, Jr., and Hurricane Katrina's devastation from the U.S. Gulf Coast. Vargas won an Emmy in 2000 for Outstanding Instant Coverage of a News Story for anchoring live coverage of the Elian Gonzalez case. In September 2016, Vargas's memoir *Between Breaths: A Memoir of Panic and Addiction* was released by Grand Central Publishing. The book details her struggles with anxiety and alcohol and tells a powerful story of healing and coping. A special episode of *20/20* aired in conjunction with the book's release, in which Vargas and Diane Sawyer discussed Vargas' experiences, reported on the link between anxiety and alcohol abuse, and interviewed both addiction experts and people recovering from addiction.

Following the William C. Menninger Memorial Convocation Lecture, **Dr. Nora D. Volkow** will join Elizabeth Vargas in a special conversation on Vargas' experience in mental health and addiction. They will discuss, among other topics, Vargas' memoir, her personal struggles with and recovery from mental illness, and the effects of anxiety on other aspects of life and mental health.

## Bios

**George J. Makari, M.D.**, attended Brown University and received his B.A.

in 1982, then received his M.D. from Cornell University Medical College in 1987. He completed his psychiatric residency

at the Payne Whitney Clinic, then served as a *Reader's Digest* research fellow in the Weill Medical College Department of Psychiatry. Dr. Makari completed psychoanalytic training at the Center for Psychoanalytic Training and Research at Columbia University in 1997. He is a professor of psychiatry and director of the DeWitt Wallace Institute for the History of Psychiatry and director of the psychodynamic psychotherapy clinic in the Payne Whitney Clinic. He is also adjunct professor at the Columbia Center for Psychoanalytic Research and Training and the Rockefeller Universities.

**Maria A. Oquendo, M.D., Ph.D.**, is president of the American Psychiatric

Association. Dr. Oquendo is professor and chairman of psychiatry at the Perelman School of Medicine at the University

of Pennsylvania. She previously served as professor of psychiatry at Columbia University and research psychiatrist at the New York State Psychiatric Institute. Dr. Oquendo's areas of expertise include the diagnosis, pharmacological treatment, and neurobiology of bipolar disorder and major depression, with a special focus on suicidal behavior and global mental health. Internationally known for neurobiological studies of suicidal behavior, Dr. Oquendo has used PET and MRI to map brain abnormalities in mood disorders and suicidal behavior. In 2003, amid issues regarding antidepressants' potential risk for inducing suicidal behavior, Dr. Oquendo and colleagues were commissioned by the FDA to develop a classification system to examine suicide-related events in the data, which is now used worldwide.

**Judith L. Rapoport, M.D.**, is a graduate of Swarthmore College and Har-

vard Medical School. Since 1986, she has been chief of the Child Psychiatry Branch at the NIMH in Bethesda, MD. Her clinical

training was at the Massachusetts Mental Health Center in Boston and St Elizabeth's Hospital in Washington, DC. Dr. Rapoport's work has been in the areas of diagnosis in child psychiatry, attention deficit/hyperactivity disorder, obsessive-compulsive disorder, and childhood-onset schizophrenia. She is the author or co-author of over 300 papers and five books. Her book on OCD, *The Boy Who Couldn't Stop Washing* was a *New York Times* best seller. She is a member of the Institute of Medicine and a fellow of the American Academy of Arts and Sciences.

## Bios

**Katherine L. Wisner** obtained her B.S. in chemistry and biology magna cum

laude from John Carroll University in Cleveland, an M.S. in nutrition and an M.D. from Case Western Reserve

University, followed by a categorical pediatric internship and general and child psychiatry residency at Children's Hospital of Pittsburgh and Western Psychiatric Institute and Clinic. She completed a three-year post-doctoral fellowship in epidemiology at the University of Pittsburgh Graduate School of Public Health, a fellowship in professional ethics at Case Western Reserve University, and a certificate for the Physician Leadership and Management Program at the Katz Graduate School of Business at the University of Pittsburgh. She also completed the Executive Leadership in Academic Medicine program. She is Board-certified in general and child and adolescent psychiatry. Dr. Wisner's main research focus is the psychiatric treatment of women of childbearing age, and she is internationally recognized as an expert in the treatment of mood disorders during pregnancy and the postpartum period.

**Albert Yeung, M.D.**, is director of primary care research at the

Depression Clinical and Research Program at Massachusetts General Hospital (MGH) and associate

professor of psychiatry at Harvard Medical School. Dr. Yeung obtained his medical degree from National Taiwan University. He also obtained a doctor of science degree with a major in epidemiology from Harvard School of Public Health. He completed residency training in psychiatry at MGH. Dr. Yeung's major research interests include integrating primary care and mental health services to improve treatment of depression, mental health issues of underserved populations, and the use of complementary and alternative methods including acupuncture, tai chi, qigong, and mind-body group intervention in treating anxiety and depressive disorders. He has authored or co-authored over 90 original articles, numerous book chapters, and two books: *Self-Management of Depression* and *The Science of Stress*.

# Focus

The Journal of Lifelong Learning in Psychiatry

## The Best Resource for

- Clinical Synthesis
- Expert Guidance
- Lifelong Learning
- Maintenance of Certification

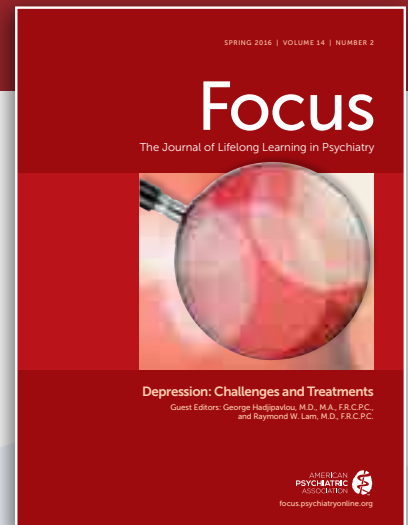

**Focus**, APA's quarterly clinical review journal, is designed for practicing psychiatrists to keep abreast of significant clinical knowledge and advances in the field through self-directed lifelong learning. Four issues each year provide comprehensive reviews of major clinical areas of psychiatry. **Focus** also provides an organized learning and self-assessment program with 44 hours of CME each year.

## An Annual Subscription to Focus Gives You:

- Reviews of core areas in psychiatry, with each issue overseen by a Guest Editor clinical expert in that area.
- Articles on new clinical developments and the current state of practice.
- Quizzes that allow you to earn up to five *AMA PRA Category 1 Credits*<sup>™</sup> by completing CME questions for each issue—for a total of up to 20 CME credits per year.
- An annual 120-question **self-assessment exam** for an additional 24 CME credits and APBN MOC self-assessment credits that provides you with a comparison of your result against the group score of your peers.
- Online access to back issues (CME credits for issue quizzes available only for your subscription year).

## Bios

**Melissa Arbuckle, M.D., Ph.D.**, is vice chair for education and director of

residency training in psychiatry at the Columbia University Medical Center. Her work in medical education has focused

on implementation and dissemination and translating research to practice. As co-chair of the National Neuroscience Curriculum Initiative (NNCI), Dr. Arbuckle has been developing new approaches and resources for training psychiatrists to integrate a modern neuroscience perspective into their clinical work.

**David R. Williams** is the Florence Sprague Norman and Laura Smart

Norman Professor of Public Health at the Harvard School of Public Health and Professor of African and African

American Studies and of Sociology at Harvard University. He is internationally recognized as a leading social scientist focused on social influences on health. His research has enhanced our understanding of the complex ways in which race, racism, socioeconomic status, stress, health behaviors, and religious involvement can affect physical and mental health.

# Get Involved in APA Advocacy!

APAPAC is the political arm of APA – psychiatry’s voice on Capitol Hill and our instrument for getting more friends of psychiatry elected to the United States Congress. APAPAC plays a vital role in APA’s advocacy efforts, giving psychiatry a seat at the table in the health care policy arena. APAPAC supports candidates on both sides of the aisle who have demonstrated an understanding of and support for our profession and our patients.

The Congressional Advocacy Network is APA’s political grassroots network. Our Congressional Advocacy Network Advocates serve as “key contacts” for their members of Congress so that when an important issue comes up before the U.S. Congress (like Medicare and Medicaid reimbursement for physicians and comprehensive mental health reform), APA can quickly get its message to members of Congress.

Stop by one of our Advocacy booth locations to find out how you can get involved in advocacy and **APAPAC**:

APAPAC Booth Locations/Times:		
Assembly Hall	Friday	10:30am -4:15pm
Assembly Hall	Saturday	7:30am - 4:00pm
Hall C Lobby	Saturday	10:00am - 4:00pm

# General Information

The APA exhibits program is an integral component of the overall Annual Meeting and provides an excellent opportunity for meeting registrants to obtain the latest information on products and services related to the psychiatric profession.

The meeting would not be possible without the generous support of our exhibitors, so please allow adequate time in your daily schedule to visit the exhibits, which are located in Exhibit Halls A-C, Ground Level, in the San Diego Convention Center. When you explore the exhibits, you will have the opportunity to participate in interactive computer programs and speak with the representatives of companies that provide services and products related directly to your professional and personal interests.

To assist in locating a particular company or product, a floor plan of the Exhibit Hall is included in this section, along with 1) an alphabetical list of exhibitors with product/service description; 2) exhibitors listed by product/service; and 3) exhibitors listed numerically by booth number. Exhibit information will also be available on the Interactive Wayfinding Exhibit Hall Monitor in the Exhibit Hall, within the registration area.

## Hospitality Lounges

Two APA Cafés, serving complimentary coffee (Locations #1051 and #2143) are located in the rear of the Exhibit Hall. Please use these areas to relax and network with colleagues. Charging stations for cell phones and laptops, as well as free Wi-Fi, are also available in each café.

## Publishers Book Fair

Major publishers and book sellers, including American Psychiatric Association Publishing, are located in this designated area. Participating companies are selling and taking orders for new and current professional books in the field of psychiatry.

## Career Fair

Exhibitors in this area include government agencies, hospitals, locum tenens, mental health clinics, psychiatric facilities, and recruiters seeking psychiatrists to fill open positions. Find **APA JobCentral**, the career hub for psychiatry and ultimate recruitment tool for employers and job seekers alike, located in

APA Central, next to the American Psychiatric Association Publishing Bookstore.

## International Pavilion

This area in the Exhibit Hall is composed of international organizations and associations, which will be holding international meetings outside of the United States.

## Endorsements

Products and services displayed in the Exhibit Hall occur by the contractual arrangement between the American Psychiatric Association and participating companies. This arrangement does not constitute or imply an endorsement by the American Psychiatric Association of these products or services.

## Exhibit Dates and Hours

## Exhibit Hall Activities

### NEW!

#### Mental Health Innovation Zone

Plan to attend to see what is new in technology for the psychiatric community. The Mental Health Innovation Zone offers attendees opportunities for idea sharing, friendly competition, imaginative business solutions, brainstorming sessions, and app architecture that will transform the industry.

All Exhibit Hall activities will take place in Exhibit Halls A-C, Ground Level, in the San Diego Convention Center.

# General Information

- ▶ APA Cafés with daily coffee service, along with free Wi-Fi and charging stations for cell phones and laptops.

## The Sunshine Act and How It Affects You

The Physician Payment Sunshine Act is a federal law that requires pharmaceutical and device manufacturers under certain circumstances to publicly report any complimentary gift, food, beverage, non-CME certified education or other items of value given to physicians. Some of the food, product theaters and trinkets that may be available to you at this meeting have been sponsored by companies that may be required to report your receipt of that gift. The APA recommends that you ask the person providing the complimentary item whether your name will be reported under the Act before accepting complimentary products or food so that you can make an independent and educated decision to accept or not accept it.

# Women's Mentoring & Networking

— Brown Bag Lunch —

**Sunday, May 21, 2017**

11:30 a.m. – 1:30 p.m.

Room 5 A/B Upper Level

San Diego Convention Center

Women psychiatrists attending the APA Annual Meeting are cordially invited to join the Women's Caucus for fellowship and conversation with a wonderful group of women colleagues from around the world and at all career stages.

- ▶ **Get advice from over thirty prominent psychiatrists on:**
  - Balancing your personal and professional roles
  - Taking your career to a new level or in a different direction
  - Negotiating a salary, title, academic promotion and more
  - Seeking national leadership in psychiatry
  - Building your practice
  - And more!
- ▶ **Share your opinions with current and recently-elected APA officers**
- ▶ **Meet residency and fellowship program directors from around the country**
- ▶ **Network with other women in your area who are looking for women colleagues to refer clients to**
- ▶ **Learn more about combining psychiatry with a business career, government and public affairs, cultural or minority issues and more**
- ▶ **Or just come by to relax, talk and make friends**

***Be sure to bring your lunch!***
