Focus
The Journal of Lifelong Learning in Psychiatry

The Best Resource for
• Clinical Synthesis
• Expert Guidance
• Lifelong Learning
• Maintenance of Certification

Focus, APA’s quarterly clinical review journal, is designed for practicing psychiatrists to keep abreast of significant clinical knowledge and advances in the field through self-directed lifelong learning. Four issues each year provide comprehensive reviews of major clinical areas of psychiatry. Focus also provides an organized learning and self-assessment program with 44 hours of CME each year.

An Annual Subscription to Focus Gives You:

• Reviews of core areas in psychiatry, with each issue overseen by a Guest Editor clinical expert in that area.

• Articles on best practices, new developments and the current state of practice.

• Quizzes that allow you to earn up to five AMA PRA Category 1 Credits™ by completing CME questions for each issue—for a total of up to 20 CME credits per year.

• An annual 120-question self-assessment exam for an additional 24 CME credits and APBN MOC self-assessment credits that provides you with a comparison of your result against the group score of your peers.

• Online access to back issues (CME credits for issue quizzes available only for your subscription year).
