

**Coverage for Psychiatric Collaborative Care Management (CoCM) Codes
 (CPT Codes 99492-99494)**

The American Psychiatric Association has compiled an interim list of payers who have either indicated they have approved coverage for psychiatric collaborative care management (CoCM) codes (CPT codes 99492-99494) or for whom we have confirmation that a paid claim(s) has occurred. This list has been compiled based on reports from the field. Coverage varies by individual insurance plan, so it is imperative that practices verify coverage on a payer by payer basis. Please contact the APA’s Practice Management Helpline (800-343-4671 or practicemanagement@psych.org) with any corrections or omissions.

Payer	Coverage	
	Yes	No
