Position Statement on Segregation of Prisoners with Mental Illness

“Policy documents are approved by the APA Assembly and Board of Trustees. . . These are . . . position statements that define APA official policy on specific subjects. . .” – APA Operations Manual

Position:
Prolonged segregation of adult inmates with serious mental illness, with rare exceptions, should be avoided due to the potential for harm to such inmates. If an inmate with serious mental illness is placed in segregation, out-of-cell structured therapeutic activities (i.e., mental health/psychiatric treatment) in appropriate programming space and adequate unstructured out-of-cell time should be permitted. Correctional mental health authorities should work closely with administrative custody staff to maximize access to clinically indicated programming and recreation for these individuals.
