Guide

turning patient needs into breakthrough discoveries

Axsome Therapeutics, Inc. is proud to support the
2024 APA Annual Meeting.

At Axsome, we are committed to developing
therapeutic approaches that meaningfully improve
the lives of patients and provide additional options
for physicians.

Learn More About This Guide

This guide provides information essential for participants of the 2024 Annual Meeting. Within its pages, attendees will find detailed overviews of the meeting agenda, scientific program sessions, schedules for new research poster presentations, and an in-depth guide to navigating the Exhibit Hall. The guide is designed to enhance your meeting experience in New York, ensuring you maximize the opportunities for learning and engagement.

The program section offers a systematic layout of the scientific session formats, complemented by a log for attendees to document daily participation. This feature is particularly beneficial for those seeking to obtain CME credit for their activities. The organization of the program is segmented by day and session start times, with a clear alphabetical listing of formats and sessions under each time slot. To aid in program navigation, individual meeting days and program tracks are distinguished by color coding, simplifying the process of locating sessions of interest.

A notable addition to this year's guide is the tracks listing on page 36, tailored to accommodate attendees' specific interests and career stages, featuring a curated selection of sessions.

The exhibits section extends our gratitude to the exhibitors for their participation and provides a comprehensive list of activities, exhibitors, and a detailed floor plan of the Exhibit Hall. Attendees are encouraged to use the guide and the APA Meetings App with the latest details to navigate the meeting.

For any inquiries regarding this guide or the scientific program, attendees are invited to visit the Education Center, located in the Special Events Hall 1D, Foyer, where the APA Administration will be available to provide assistance.

Go from trial and error to test and treat with IDgenetix

Comprehensive pharmacogenomic (PGx) testing that guides personalized mental health medication selection, tailored to each patient's unique profile.

Qelbree[®]
ONCE-DAILY
viloxazine
extended-release capsules
100 mg 150 mg 200 mg

Rethink ADHD Symptom Control

Supernus Pharmaceuticals proudly supports the APA 2024 Annual Meeting.

INDICATION

Qelbree is indicated for the treatment of ADHD in adults and pediatric patients 6 years and older.

IMPORTANT SAFETY INFORMATION

WARNING: SUICIDAL THOUGHTS AND BEHAVIORS

In clinical studies, higher rates of suicidal thoughts and behaviors were reported in patients with ADHD treated with Qelbree than in patients treated with placebo. Closely monitor all Qelbree-treated patients for clinical worsening and for emergence of suicidal thoughts and behaviors.

CONTRAINDICATIONS

- Concomitant administration of a monoamine oxidase inhibitor (MAOI), or dosing within 14 days after discontinuing an MAOI, because of an increased risk of hypertensive crisis
- Concomitant administration of sensitive CYP1A2 substrates or CYP1A2 substrates with a narrow therapeutic range

WARNINGS & PRECAUTIONS

- *Suicidal thoughts and behaviors:* Closely monitor all Qelbree-treated patients for clinical worsening and emergence of suicidal thoughts and behaviors, especially during the initial few months of drug therapy, and at times of dosage changes
- *Heart rate, blood pressure increases:* Qelbree can cause an increase in diastolic blood pressure and heart rate. Assess these measures prior to starting therapy, following increases in dosage, and periodically during therapy
- *Activation of mania or hypomania:* Noradrenergic drugs may induce a manic or mixed episode in patients with bipolar disorder. Prior to initiating treatment with Qelbree, screen patients to determine if they are at risk for bipolar disorder. Screening should include a detailed psychiatric history, including a personal or family history of suicide, bipolar disorder, and depression
- *Somnolence and fatigue:* Patients should not perform activities requiring mental alertness, such as operating a motor vehicle or hazardous machinery, due to potential somnolence (including sedation or lethargy) and fatigue, until they know how they will be affected by Qelbree

ADVERSE REACTIONS

The most common adverse reactions (≥5% and at least twice the rate of placebo for any dose) in patients 6 to 17 years were somnolence, decreased appetite, fatigue, nausea, vomiting, insomnia, and irritability, and in adults, insomnia, headache, somnolence, fatigue, nausea, decreased appetite, dry mouth, and constipation.

PREGNANCY

There is a pregnancy exposure registry that monitors pregnancy outcomes in women exposed to Qelbree during pregnancy. Healthcare providers are encouraged to register patients by calling the National Pregnancy Registry for Psychiatric Medications at 1-866-961-2388 or by visiting www.womensmentalhealth.org/preg.

Abbreviations: ADHD, attention-deficit/hyperactivity disorder; APA, American Psychiatric Association.

Qelbree® (viloxazine extended-release capsules), for oral use

BRIEF SUMMARY OF FULL PRESCRIBING INFORMATION

For full prescribing information, see package insert.

WARNING: SUICIDAL THOUGHTS AND BEHAVIORS

In clinical studies, higher rates of suicidal thoughts and behavior were reported in patients with ADHD treated with Qelbree than in patients treated with placebo. Closely monitor all Qelbree-treated patients for clinical worsening, and for emergence of suicidal thoughts and behaviors.

INDICATIONS AND USAGE

Qelbree is indicated for the treatment of Attention-Deficit Hyperactivity Disorder (ADHD) in adults and pediatric patients 6 years and older.

CONTRAINDICATIONS

Qelbree is contraindicated in patients receiving concomitant treatment with monoamine oxidase inhibitors (MAOI), or within 14 days following discontinuing an MAOI, because of an increased risk of hypertensive crisis.

Qelbree should not be taken when receiving concomitant administration of sensitive CYP1A2 substrates or CYP1A2 substrates with a narrow therapeutic range.

WARNINGS AND PRECAUTIONS

Suicidal Thoughts and Behaviors

Higher rates of suicidal thoughts and behaviors were reported in pediatric and adult patients with ADHD treated with Qelbree than in patients treated with placebo.

Among 1019 patients exposed to Qelbree 100 mg to 400 mg in short-term trials, a total of nine patients (0.9%) reported suicidal ideation (N=6), behavior (N=1) or both (N=2). Eight patients reported suicidal ideation or behavior on the Columbia Suicide Severity Rating Scale (C-SSRS), a validated scale that assesses suicide risk. An additional patient treated with Qelbree reported suicidal behavior during the clinical trials, but did not report it on the C-SSRS. Among 463 patients treated with placebo in these studies, two patients (0.4%) reported suicidal ideation on the C-SSRS. No patients treated with placebo reported suicidal behavior. No completed suicides occurred in these trials.

Among 189 adults treated with Qelbree, a total of three patients (1.6%) reported suicidal ideation on the C-SSRS, versus 0 of 183 adults treated with placebo. No adults treated with either Qelbree or placebo reported suicidal behavior on the C-SSRS in the study. No attempted or completed suicides occurred in the trial.

Patients treated with Qelbree had higher rates of insomnia and irritability. Although a causal link between the emergence of insomnia and irritability and the emergence of suicidal impulses has not been established, there is a concern that these and other symptoms such as depressed mood, anxiety, agitation, akathisia, mania, hypomania, panic attacks, impulsive behavior, and aggression may represent precursors to emerging suicidal ideation or behavior. Thus, patients being treated with Qelbree should be observed for the emergence of precursor symptoms.

Closely monitor all Qelbree-treated patients for clinical worsening and emergence of suicidal thoughts and behaviors, especially during the initial few months of drug therapy, and at times of dosage changes.

Consider changing the therapeutic regimen, including possibly discontinuing Qelbree, in patients who are experiencing emergent suicidal thoughts and behaviors or symptoms that might be precursors to emerging suicidal ideation or behavior, especially if these symptoms are severe or abrupt in onset, or were not part of the patient's presenting symptoms. Advise family members or caregivers of patients to monitor for the emergence of suicidal ideation or behavior, and to report such symptoms immediately to the healthcare provider.

Effects on Blood Pressure and Heart Rate

Qelbree can cause an increase in heart rate and diastolic blood pressure.

In a clinical study in patients 6 to 11 years of age, 34/154 (22%) of patients treated with Qelbree 100 mg daily had a ≥ 20 beat per minute (bpm) increase in heart rate at any time point in the clinical trial, compared to 15/159 (9%) of patients who received placebo. This finding was observed in 84/268 (31%) who received the 200 mg dose, compared to 39/262 (15%) of patients in the placebo group, and in 28/100 (28%) of patients who received the 400 mg dose, compared to 24/103 (23%) of patients who received placebo.

In a clinical study in patients 12 to 17 years of age, 22/99 (22%) of patients treated with Qelbree 200 mg daily had a ≥ 20 bpm increase in heart rate at any time point in the clinical trial, compared to 15/104 (14%) of patients who received placebo. This finding was observed in 69/205 (34%) who received the 400 mg dose, compared to 35/201 (17%) of patients in the placebo group.

In patients ages 12 to 17 years, 52/205 (25%) of patients treated with Qelbree 400 mg daily had a ≥ 15 mmHg increase in diastolic blood pressure at any time in the clinical trial, compared to 26/201 (13%) of patients in the placebo group.

In a clinical study in adult patients (18 to 60 years of age), 52/178 (29%) of patients treated daily with Qelbree (200 mg to 600 mg) had a ≥ 20 beat per minute (bpm) increase in heart rate at any time point in the clinical trial, compared to 23/181 (13%) of patients who received placebo. Of patients treated daily with Qelbree (200 to 600 mg), 23/178 (13%) had a ≥ 15 mmHg increase in diastolic blood

pressure at any time in the clinical trial, compared to 16/181 (9%) of patients in the placebo group.

Assess heart rate and blood pressure prior to initiating treatment with Qelbree, following increases in dosage, and periodically while on therapy.

Activation of Mania or Hypomania

Noradrenergic drugs, such as Qelbree, may induce a manic or mixed episode in patients with bipolar disorder. Prior to initiating treatment with Qelbree, screen patients to determine if they are at risk for bipolar disorder; such screening should include a detailed psychiatric history, including a personal or family history of suicide, bipolar disorder, and depression.

Somnolence and Fatigue

Qelbree can cause somnolence and fatigue. In the short-term, placebo-controlled clinical trials in pediatric patients 6 to 17 years of age with ADHD, somnolence (including lethargy and sedation) was reported in 16% of Qelbree-treated patients compared to 4% of placebo-treated patients. Fatigue was reported in 6% of Qelbree-treated patients compared to 2% of placebo-treated patients.

In adults, somnolence was reported in 6% of Qelbree-treated patients versus 2% in placebo-treated patients. Fatigue was reported in 12% of Qelbree-treated patients versus 3% of placebo-treated patients.

Patients should not perform activities requiring mental alertness, such as operating a motor vehicle or operating hazardous machinery until they know how they will be affected by Qelbree.

ADVERSE REACTIONS

Clinical Trials Experience

The safety of Qelbree has been evaluated in 1118 patients 6 to 17 years of age with ADHD exposed to one or more doses in short-term (6 to 8 week), randomized, double-blind, placebo-controlled trials.

A total of 682 pediatric patients were treated for at least 6 months, and 347 pediatric patients for at least 12 months with Qelbree.

The safety of Qelbree has been evaluated in 189 adult patients (18 to 60 years of age) with ADHD exposed to one or more doses in a short-term (6 week), randomized, double-blind, placebo-controlled trial. A total of 277 adult patients with ADHD have been exposed to one or more doses of Qelbree.

Eighty-four adult patients were treated for at least 6 months, and 22 adult patients for at least 12 months.

The data described below reflect exposure to Qelbree in 826 patients (6 to 17 years) who participated in randomized, double-blind, placebo-controlled trials with doses ranging from 100 mg to 400 mg. The population (N=826) was 65% male, 35% female, 54% White, 41% Black, 4% multiracial, and 1% other races.

Adverse Reactions Leading to Discontinuation of Qelbree Treatment:

Approximately 3% (n=27) of the 826 patients receiving Qelbree in clinical studies discontinued treatment due to an adverse reaction. The adverse reactions most commonly associated with discontinuation of Qelbree were somnolence (n=5), nausea (n=3), headache (n=2), irritability (n=2), tachycardia (n=2), fatigue (n=2), and decreased appetite (n=2).

Most Common Adverse Reactions (occurring at $\geq 5\%$ and at least twice the placebo rate for any dose): somnolence, decreased appetite, fatigue, nausea, vomiting, insomnia, and irritability.

Tables 1 and 2 below lists adverse reactions that occurred in at least 2% of patients treated with Qelbree and more frequently in Qelbree-treated patients than in placebo-treated patients. Table 1 data represents pooled data from pediatric patients 6-17 years of age who were enrolled in randomized, placebo-controlled trials of Qelbree. Table 2 represents data from adults with ADHD who were enrolled in a flexible-dose, randomized, placebo-controlled trial of Qelbree at doses of 200mg to 600mg.

Table 1. Adverse Reactions Reported in $\geq 2\%$ of Pediatric Patients (6 to 17 Years of Age) Treated with Qelbree and at a Rate of Greater than Placebo-Treated Patients in Placebo-Controlled ADHD Studies

Body System Adverse Reaction	Placebo N=463 (%)	Qelbree			
		100mg N=154 (%)	200mg N=367 (%)	400mg N=305 (%)	All Qelbree N=836 (%)
Nervous system disorders					
Somnolence*	4	12	16	19	16
Headache*	7	10	11	11	11
Metabolic and nutritional disorders					
Decreased appetite	0.4	5	8	8	7
Infections and infestations					
Upper respiratory tract infections*	6	5	7	8	7
Body as a Whole - General disorders					
Fatigue	2	4	5	9	6
Pyrexia	0.2	3	2	1	2
Gastrointestinal system disorders					
Abdominal Pain*	4	3	6	7	5
Nausea	3	1	4	7	5
Vomiting	2	5	3	6	4

Table 1. Adverse Reactions Reported in ≥2% of Pediatric Patients (6 to 17 Years of Age) Treated with Qelbree and at a Rate of Greater than Placebo-Treated Patients in Placebo-Controlled ADHD Studies (continued)

Body System Adverse Reaction	Placebo N=463 (%)	Qelbree			
		100mg N=154 (%)	200mg N=367 (%)	400mg N=305 (%)	All Qelbree N=836 (%)
Psychiatric disorders					
Insomnia*	1	2	5	5	4
Irritability	1	3	2	5	3

*The following items were combined:

Somnolence: somnolence, lethargy, sedation

Headache: headache, migraine, migraine with aura, tension headache

Upper respiratory tract infection: nasopharyngitis, pharyngitis, sinusitis, upper respiratory tract infection, viral sinusitis, viral upper respiratory tract infection

Abdominal pain: abdominal discomfort, abdominal pain, abdominal pain lower, abdominal pain upper

Insomnia: initial insomnia, insomnia, middle insomnia, poor quality sleep, sleep disorder, terminal insomnia

The data described below reflect exposure to Qelbree in 189 adults with ADHD who participated in the flexible-dose, randomized, double-blind, placebo-controlled trial with doses ranging from 200 mg to 600 mg. The population (N=189) was 56% male, 44% female, 81% White, 12% Black, 3% Asian, 3% other races and 1% multiracial.

Adverse Reactions Leading to Discontinuation of Qelbree Treatment:

Approximately 9% of the 189 patients receiving Qelbree in clinical studies discontinued treatment due to an adverse reaction. The adverse reactions most commonly associated with discontinuation of Qelbree were fatigue (n=4), insomnia (n=3), constipation (n=3), and headache (n=2).

Most Common Adverse Reactions (occurring at ≥5% and at least twice the placebo rate of Qelbree): insomnia, headache, somnolence, fatigue, nausea, decreased appetite, dry mouth, and constipation.

Listed here are adverse reactions that occurred in at least 2% of patients treated with Qelbree and more frequently in the Qelbree-treated patients than in the placebo-treated patients. Table 2 represents data from adults with ADHD who were enrolled in a flexible-dose, randomized, placebo-controlled trial of Qelbree at doses of 200 mg to 600 mg.

Table 2. Adverse Reactions Reported in ≥2% of Adults Treated with Qelbree and at a Rate Greater than Placebo-Treated Patients in a Flexible-Dose Placebo-Controlled ADHD Study

Body System Adverse Reaction	Placebo N=183 (%)	Qelbree (200 mg to 600 mg) N=189 (%)
Psychiatric disorders		
Insomnia*	7	23
Irritability	3	4

Decreased appetite	3	10
Cardiac disorders		
Tachycardia	1	4

*The following items were combined:

Somnolence: somnolence, lethargy, sedation

Headache: headache, migraine, migraine with aura, tension headache

Insomnia: initial insomnia, insomnia, middle insomnia, poor quality sleep, sleep disorder, terminal insomnia

DRUG INTERACTIONS

Drugs Having Clinically Important Interactions with Qelbree

Monoamine Oxidase Inhibitors (MAOI)

- Clinical Impact: Concomitant use of Qelbree with an MAOI may lead to a potentially life-threatening hypertensive crisis.
- Intervention: Concomitant use of Qelbree with an MAOI or within 2 weeks after discontinuing an MAOI is contraindicated.

Sensitive CYP1A2 Substrates or CYP1A2 Substrates with a Narrow Therapeutic Range

- Clinical Impact: Viloxazine is a strong CYP1A2 inhibitor. Concomitant use of viloxazine significantly increases the total exposure, but not peak exposure, of

sensitive CYP1A2 substrates, which may increase the risk of adverse reactions associated with these CYP1A2 substrates.

- Intervention: Coadministration with Qelbree is contraindicated.

Moderate Sensitive CYP1A2 Substrate

- Clinical Impact: Viloxazine is a strong CYP1A2 inhibitor. Concomitant use of viloxazine significantly increases the total, but not peak, exposure of sensitive CYP1A2 substrates, which may increase the risk of adverse reactions associated with these CYP1A2 substrates.
- Intervention: Not recommended for coadministration with Qelbree. Dose reduction may be warranted if coadministered.

CYP2D6 Substrates

- Clinical Impact: Viloxazine is a weak inhibitor of CYP2D6, and increases the exposure of CYP2D6 substrates when coadministered.
- Intervention: Monitor patients for adverse reactions and adjust dosages of CYP2D6 substrates, as clinically indicated.

CYP3A4 Substrates

- Clinical Impact: Viloxazine is a weak inhibitor of CYP3A4 which increases the exposure of CYP3A4 substrates when coadministered.
- Intervention: Monitor patients for adverse reactions and adjust dosages of CYP3A4 substrates, as clinically indicated.

USE IN SPECIFIC POPULATIONS

Pregnancy

Pregnancy Exposure Registry

There is a pregnancy exposure registry that monitors pregnancy outcomes in women exposed to Qelbree during pregnancy. Healthcare providers are encouraged to register patients by calling the National Pregnancy Registry for Psychiatric Medications at 1-866-961-2388, or visiting online at www.womensmentalhealth.org/preg.

Risk Summary

Based on findings from animal reproduction studies, viloxazine may cause maternal harm when used during pregnancy. Discontinue Qelbree when pregnancy is recognized unless the benefits of therapy outweigh the potential risk to the mother. Available data from case series with viloxazine use in pregnant women are insufficient to determine a drug-associated risk of major birth defects, miscarriage or adverse maternal outcomes.

In animal reproduction studies, oral administration of viloxazine during the period of organogenesis caused fetal toxicities and delayed fetal development in the rat and maternal toxicities in the rabbit at doses approximately equal to the maximum recommended human dose (MRHD) of 600mg in adults, based on mg/m². Oral administration of viloxazine to pregnant rats and mice during pregnancy and lactation caused maternal toxicities and deaths and fetal toxicities at doses equal to or less than the MRHD of 600mg in adults, based on mg/m², respectively.

The estimated background risk of major birth defects and miscarriage for the indicated population is unknown. All pregnancies have a background risk of birth defect, loss, or other adverse outcome. In the U.S. general population, the estimated background risk of major birth defects and miscarriage in clinically recognized pregnancies is 2 to 4% and 15 to 20%, respectively.

Lactation

Risk Summary

There are no data on the presence of viloxazine in human milk, the effects on the breastfed infant, or the effects on milk production. Viloxazine is likely present in rat milk. When a drug is present in animal milk, it is likely that the drug will be present in human milk.

The developmental and health benefits of breastfeeding should be considered along with the mother's clinical need for Qelbree and any potential adverse effects on the breastfed child from Qelbree or from the underlying maternal condition.

Geriatric Use

Clinical trials of Qelbree in the treatment of ADHD did not include sufficient numbers of patients aged 65 and older to determine whether or not they respond differently from younger patients.

Renal Impairment

Dosage reduction is recommended in patients with severe (eGFR of < 30 mL/min/1.73m² [MDRD]) renal impairment.

No dosage adjustment of Qelbree is recommended in patients with mild to moderate (eGFR of 30 to 89 mL/min/1.73m² [MDRD]) renal impairment.

The exposure of viloxazine increases in patients with renal impairment.

OVERDOSAGE

Human Experience

The pre-market clinical trials with Qelbree do not provide information regarding symptoms of overdose.

Literature reports from post marketing experience with immediate-release viloxazine include cases of overdosage from 1000 mg to 6500 mg (1.7 to 10.8 times the maximum recommended daily dose). The most reported symptom was drowsiness. Impaired consciousness, diminished reflexes, and increased heart rate have also been reported.

Treatment and Management

There is no specific antidote for Qelbree overdose. Administer symptomatic and supportive treatment as appropriate. In case of overdose, consult a Certified Poison Control Center (1-800-222-1222 or www.poison.org).

Welcome from the Scientific Program Committee

Dear Colleagues and Guests,

Welcome to New York and to the highly anticipated 2024 American Psychiatric Association (APA) Annual Meeting! We are delighted to have you join.

The Scientific Program Committee has diligently curated topics that address the wide spectrum of issues most pertinent to today's psychiatrists.

You can anticipate gaining valuable insights from the ever-popular Clinical Updates track. Engage with sessions covering critical topics such as Technological Addictions, Rethinking Lithium, personality disorders, and the challenges of treating late-life depression. Our commitment is to equip you with new tools that can be immediately implemented to enhance the well-being of your patients.

For trainees, our Resident-Fellow Member (RFM) track offers tailored content to prepare you for a successful career in psychiatry. Attendees can look forward to exclusive opportunities, including a Meet and Greet with APA President Dr. Petros Levounis, a Mental Health and Wellbeing Workshop, and a session on sub-specialty recruitment. We're continuing our collaboration with PsychSign (Psychiatry Student Interest Group Network) to provide specialized content for our medical student members. The wildly popular residency fair is back, and yes, it's in a much bigger room this time.

The International Medical Graduate (IMG) track, is designed to meet your educational, networking, and collaborative needs. Some IMG sessions include on Addiction Medicine and Psychiatry: An

International Perspective; The Unconscious Roots of Racial Bias; The IMG Journey: Snapshots across the Professional Lifespan, just to name a few.

In sync with the vibrant atmosphere of New York, renowned for its Broadway plays and artistic heritage, our Humanities track delves into sessions surveying a breadth of media, including music, paintings, literature, poems, and theatre. Discover humanistic teaching, the role of photography in psychiatry, and ways to confront stigma and bias through the arts.

Our Technology track captures the latest in psychiatry and technological advancements. Engage in cutting-edge sessions that delve into the ethics of AI, digital wellness, and innovative approaches to treating substance abuse disorders.

New York has a myriad of offerings, and we hope you find time to indulge in its cultural, technological, and culinary vibrancy. We understand that stepping away from work and other obligations is a significant commitment, and we sincerely thank you for dedicating your time to join us. Your feedback on the sessions and overall experience is invaluable, helping us refine and improve future Annual Meetings, so please share your thoughts with us.

We look forward to an inspiring and collaborative event in the heart of New York City. Welcome to the APA 2024 Annual Meeting!

Welcome from the APA President

Confronting Addiction From Prevention To Recovery In New York City

For the first time since 2018, the APA Annual Meeting has returned to New York City, one of the global capitals of psychiatry, mental health care, innovation, and culture.

I was inspired to create our theme, “Confronting Addiction from Prevention to Recovery,” because I wanted to draw on my professional experience, as well as the knowledge, passion and expertise of our membership as we work together to address the impact that substance use disorders (SUD) have on our patients and more broadly, on society.

We are in a unique moment where we are lucky to have incredible science, research, and tools that can help in the treatment of SUDs. As psychiatrists, our mission must be one of education and awareness, with a particular emphasis on using our expertise and medical leadership to advocate for a greater investment in the SUD treatment infrastructure in this country.

Thanks to the efforts of Dr. Eric Williams, chair of the 2024 Scientific Program Committee, along with his colleagues on the SPC, the program of the 2024 Annual Meeting seeks to meet that challenge in a way that educates, informs and inspires not only our psychiatrist members, but also our partners in SUD and mental health care. We are lucky to have sessions that will appeal and be useful to psychiatrists and psychologists, social workers, NPs and our other partners equally.

The Scientific Program Committee developed many meeting tracks to help you create an enriching meeting experience tailored to your specific interests. I encourage you to utilize the APA Meetings App to seek out the focus areas that are important to you. I'd like to highlight two here that are geared for specific audiences.

The International Medical Graduate (IMG) track is designed to support international members at all levels of their careers in integrating with and thriving in the U.S. healthcare system. This track is important to APA, as IMGs and their contributions to psychiatry and APA are a crucial component of the present

and future of mental health care in America.

The future of our profession also lives in our residents, fellows, and medical students. Much of the scientific program was curated with these newest members of our field in mind. APA has collaborated with PsychSign (Psychiatry Student Interest Group Network) to offer content exclusively tailored to them. I encourage our more experienced members to take a moment to engage with and give your support to our resident, fellow and medical student attendees.

Our other tracks are full of incredible, ground-breaking work as well, and include contributions from leaders in global psychiatry organizations, late-breaking clinical research, efforts on advancing diversity and achieving equity in psychiatry, emerging trends in medical ethics and health policy, and much more.

The program also includes a special session on the Presidential Initiative on Confronting Addiction from Prevention to Recovery that will recap the outreach work, special events, and collaborative relationships established as part of the initiative over the past year. I encourage you to attend and hear from the chair of this initiative, Smita Das, M.D., Ph.D., M.P.H., and the subject matter experts from our four topic areas.

I want to thank you for dedicating your time and effort to support your colleagues and join us at the Annual Meeting this year. It shows that you are committed to putting in the work that will be essential to advancing APA's mission and realizing our shared dream of a more mentally healthy world.

You can follow me during the meeting in real time on Twitter @Pres_APA.

Petros Levounis, M.D., M.A.

President

American Psychiatric Association

Welcome from the APA CEO and Medical Director

Dear Colleagues and Guests,

Welcome to the 179th Annual Meeting of the American Psychiatric Association.

It is great to be back in New York City, where the theme of this year's meeting is Confronting Addiction: From Prevention to

Recovery—which is fitting as we find ourselves better positioned than ever before to meet the challenges related to the opioid epidemic and other substance use disorders that impact our society.

The APA Annual Meeting is always the premier psychiatric event of the year, but the meetings in New York are always special. As always, we are featuring a world class scientific program that offers you the chance to earn up to 44 AMA PRA Category 1 Credits™.

Successfully confronting major issues like addiction will require forward thinking, collaboration, and a commitment to getting our members and attendees from allied professions the information they need to adapt to and excel in a rapidly changing healthcare landscape. This year you will see that commitment on full display in the truly groundbreaking work that will be featured in more 500 sessions, courses and symposia available to you.

The Annual Meeting is also a tremendous opportunity to network with colleagues from around the world. As those who have been coming to this meeting for years will tell you, this is a special opportunity to establish lasting personal and professional connections with colleagues from the U.S. and abroad.

Finally, this is my last Annual Meeting as CEO & Medical Director of the APA, a role I have held for the past 11 years, and which I am retiring from in June. While I am moving on from this role, I will continue to attend the Annual Meeting as an APA Member because I believe that the experience of the Annual Meeting is an incredible member benefit that is as valuable as it is informative.

Our members are what makes this meeting special, so I want to offer my heartfelt thanks to all of you for your support over the course of my tenure as CEO & Medical Director, and for joining us at the 2024 Annual Meeting.

If you're on social media, be sure to share your thoughts and experiences on the meeting by using #APAAM24

Saul Levin, M.D., M.P.A.

Welcome from the New York County Psychiatric Society

Dear Colleagues and Guests,

On behalf of the New York County Psychiatric Society, I am delighted to welcome you to New York City! As we come together to learn, network and innovate, we invite you to be drawn into the very soul of this concrete jungle that goes far beyond towering skyscrapers and bright lights. It is the “Humans of New York” that is the dynamic tapestry of humanity here.

The legacy of advocacy in this city has helped shape the path of mental health policy and practice across the country and globe. The world renowned pioneering research taking place here is not merely an academic pursuit but an unwavering commitment to care for the most vulnerable.

New York is a city that is not unacquainted with tragedy. From a fateful September day, to a virus that turned the city that doesn't sleep into a quarantine zone, it has always been a testament to rebirth and resilience. In a time where the world is witnessing unimaginable suffering, we are reminded of the words etched on the memorial of the great Rev. Dr. Martin Luther King Jr, “Out of the mountain of despair, a stone of hope emerges”- a sentiment that permeates the very fabric of the city. This hope is the force that propels us forward to act with courage and conviction for the very lives of our patients.

The core identity of the city is one of innovation and creativity. Beyond the world famous museums and Broadway's hits, there is a story on every corner and a cultural canvas to consume. From the serenity of central park to the blinding lights of Time Square, there is a revelation of the human condition. Every subway ride is a cultural reflection and microcosm of street talent, grit and the heartbreaking reality of untreated mental illness that we must not turn our eyes or hearts away from.

As you interact with gifted colleagues, learn of the most cutting edge research and engage in stirring dialogue, my hope is that you leave here rejuvenated by the sacred privilege of the oath of our profession. May we not only seek to “do no harm” but to remember the higher calling of that same oath that, “In the course of my own practice...I will keep sacred within my own breast.” As we embrace our gift of bringing mental health, may we ease suffering and become a healing presence wherever we may be.

Again, on behalf of NYCPS, welcome to New York!

Mena Mirhom, M.D.

President

New York Psychiatric Society

World-class psychiatric care

The UC Davis Department of Psychiatry and Behavioral Sciences is a national leader in research and care, and the home to a collaborative team of more than 540 faculty, staff, residents, fellows, trainees, and volunteers. We're honored to offer many robust programs including training and education, research, and comprehensive mental health services.

Early Psychosis Programs

The UC Davis Early Psychosis Programs are nationally recognized as a leading provider of early psychosis care and clinician training. By providing community-based education and outreach, we can identify individuals prior to the onset of psychosis, helping to prevent deterioration and hospitalization.

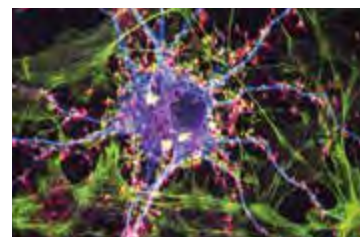

Advanced Psychiatric Therapeutics Clinic

The UC Davis Department of Psychiatry and Behavioral Sciences is opening an Advanced Psychiatric Therapeutics Clinic, dedicated to treating patients with treatment-resistant major depressive disorder. It will provide novel treatment such as transcranial magnetic stimulation (TMS), and esketamine nasal spray.

Institute for Psychedelics and Neurotherapeutics

The UC Davis Institute for Psychedelics and Neurotherapeutics brings together scientists and faculty across disciplines to advance research on psychedelics and the translation of them into safe and effective treatments for diseases such as depression, post-traumatic stress disorder, addiction, Alzheimer's disease, and Parkinson's disease, among others.

APA Central

Exhibit Halls 3AB, #1006

Saturday	11:45 a.m. - 4:00 p.m.
Sunday - Monday	9:15 a.m. - 10:30 a.m. 11:45 a.m. - 4:00 p.m.
Tuesday	9:15 a.m. - 1:30 p.m.

All attendees are invited to visit APA Central in the Exhibit Hall to learn how APA provides medical leadership for mind, brain and body. Representatives from the APA are available to answer your questions.

Not an APA Member?

Join APA and discover the value of membership. By joining onsite, you will receive a gift certificate, that can be used with your next purchase of books, journals, subscriptions, or other products sold by American Psychiatric Association Publishing. Fully trained psychiatrists will receive \$100 certificates, residents and fellows will receive \$50 certificates, and international psychiatrists will receive \$100 certificates. Stop by APA Central for more details and to apply.

Explore PsychPRO

PsychPRO is your comprehensive mental health clinical data registry. Created by APA, PsychPRO helps health care organizations measure mental health care quality and improve patient outcomes. PsychPRO learns and grows as it incorporates new data from organizations like yours. When you join our community, you help accelerate mental health care progress for all patients. Our powerful platform retrieves, aggregates, and analyzes data to uncover best practices and inform providers.

PsychPRO is led by APA and its members to ensure integrity, provide affordability, and encourage widespread adoption — all for the greater good. Our clinical authority and unwavering commitment to serving both the mental health field and the public make APA uniquely equipped to lead the charge in establishing quality care.

APA Foundation

Backed by the medical expertise of the APA and industry-leading strategic partners, the APA Foundation administers community-changing programs, public education campaigns, fellowship

training, grants, and awards aimed at increasing mental health literacy, connecting individuals to needed care, and shifting attitudes toward mental health.

All of our initiatives focus on one vision: A mentally healthy nation for all where you live, learn, work, worship, and play.

Donate and support Foundation programs that promote the importance of mental health.

For more information about the APA Foundation, visit apafdn.org

APAPAC & Congressional Advocacy Network

Together, we're making a difference to reach lawmakers on the importance of the many issues facing our profession and patients like access to high quality mental health care, parity enforcement, research, and health equity. APA members can get involved through the American Psychiatric Association Political Action Committee (APAPAC) and the Congressional Advocacy Network (CAN). APAPAC identifies and makes political contributions to candidates' campaigns for federal office who are supportive of mental health issues affecting our specialty and our patients, through the generous contributions of members. CAN helps to develop, train, and energize a national network of psychiatrists committed to building personal relationships with members of Congress to help educate them on mental health issues and the profession of psychiatry. Please stop by APA Central to learn how you can get involved.

APA JobCentral

Looking for your next career move, or need to hire? Visit APA JobCentral located in APA Central to discover available jobs across the country or post a position. A representative will be available to assist you. Using the Event Connection tool, candidates and employers can flag their resume and/or posting to show their attendance at meeting. Stop by and pick up a copy of the *2024 APA JobCentral Featured Jobs* guide or visit us online at psychiatry.org/jobcentral and preview our career benchmark survey tool.

General Information

APA Art Exhibit

Exhibit Halls 3AB, #1562

Open during Exhibit Hall Hours

Special member prices are available on subscription products.

Book Signings

Sunday, May 5

Bestselling Author:

Patrick J. Kennedy 3:15 p.m. - 3:45 p.m.

Psychiatric News and Psychiatric News Update

The *Psychiatric News Update* is an e-newsletter produced onsite each day of the meeting and reports on major Annual Meeting events, plenary and scientific sessions, and general news. It is emailed to all attendees and APA members and is available in the APA Meetings App. Print copies of the latest issue of *Psychiatric News* can be picked up from bins located in key locations in the convention center. Extensive coverage of the meeting will appear in later issues of *Psychiatric News* in special Annual Meeting sections.

APA Foundation Benefit

Ticketed Event

Monday May 6 7:30 p.m. - 10:30 p.m.

Join us at the beautiful **Cipriani 25 Broadway**, a New York City Landmark, for an unforgettable night of dinner, dancing and fun as we celebrate the progress the APA Foundation has made toward its mission of creating a mentally healthy nation for all.

Purchase tickets at apafdn.org/benefit.

APA Meetings App

The APA Meetings App gives you all the information you need to navigate the Annual Meeting.

Search the scientific program by day, format, topic, or speaker. Use maps to find meeting spaces and the Exhibit Hall. Receive real-time alerts from the APA and provide feedback through surveys.

To download the app for Apple and Android devices, visit the App Store or Google Play and search for "APA Meetings" or visit psychiatry.org/app from your mobile device. For app assistance during the meeting, visit the Education Center.

APA Newsroom and Communications Office

Room 1E01 - 1E02, Level 1

Saturday - Tuesday 8:00 a.m. - 5:00 p.m.
Wednesday 8:00 a.m. - 10:00 a.m.

These rooms are for the use of registered and credentialed members of the media.

Continuing Medical Education

Certificate of Attendance and Evaluation

The general meeting evaluation and CME certificates are available at the CME Credit Booth located in the Special Events Hall 1D Foyer, Level 1, Monday - Wednesday, 7:30 a.m. - 5:15 p.m. or online at psychiatry.org/AMcme. The online evaluation website will be available during the meeting and for three months afterward. Participants can claim CME certificates through August 25, 2024. You will need the username and password provided in your registration confirmation email or your badge number to access the evaluation and obtain your certificate. For assistance, please contact educme@psych.org.
Certificates will not be issued after August 8, 2024.

General Information

Educational Objectives

By participating in this meeting, you will:

- ▶ Address the impact of substance abuse disorders on our patients.
- ▶ Describe new research findings in psychiatry and neuroscience and how they may impact practice.
- ▶ Apply quality improvement strategies to improve clinical care.
- ▶ Provide culturally competent care for diverse populations.
- ▶ Describe the utility of psychotherapeutic and pharmacological treatment options.
- ▶ Integrate knowledge of current psychiatry into discussions with patients.
- ▶ Identify barriers to care, including health service delivery issues.

Accreditation

In support of improving patient care, the American Psychiatric Association is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The APA designates this live activity for a maximum of *44 AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Unless otherwise specified, scientific sessions on the Annual Meeting program meet the criteria for *AMA PRA Category 1 Credit™*. Sessions in the following program formats are designated as Category 1: courses and master courses, FOCUS Live!, general sessions, learning lab sessions, presidential sessions, and APA Publishing sessions.

Poster sessions, the Emerging Voices plenary, and events in the Mental Health Innovation Zone are NOT designated for *AMA PRA Category 1 Credit™*.

Please note that the scientific program schedule is subject to change. Please see the APA Meetings App for details on changes to the scientific program.

Attendance

Scientific sessions and posters are open to all Annual Meeting registrants. Courses and master courses require advance registration and an additional registration fee. You must be registered for the meeting before you can enroll in courses and master courses.

To document CME credit earned at the Annual Meeting, participants should maintain a list of sessions they attend. Credit is earned on an hour-for-hour basis. A daily attendance log is provided in this book for tracking your sessions and credits. See page 66.

Courses

NY Marriott Marquis Hotel

Saturday – Tuesday 8:00 a.m. – 5:15 p.m.

We're pleased to present two distinct educational opportunities designed to enhance your professional development: Courses and Master Courses.

Courses are crafted to provide an engaging learning experience, facilitating direct interaction with esteemed faculty members. They offer an in-depth exploration of specific topics, extending beyond the scope of general sessions. A total of 30 Courses and Master Courses will be available, allowing for an enriching exchange of knowledge and ideas.

Master Courses are for those seeking a more intensive learning journey. They deliver full-day, clinically oriented content aimed at imparting actionable skills for everyday clinical challenges. These sessions focus on specialized areas of practice and are limited in capacity to ensure an optimal learning environment. Each Master Course registration includes relevant publications from American Psychiatric Association Publishing, with 8 Master Courses on offer.

Courses and Master Courses will be conducted from Saturday, May 4, to Tuesday, May 7. The registration fee for each course is \$190, and for each master course, it is \$390. For detailed course descriptions and to manage your course selections, please access the APA Meetings App. Please note, registration for the Annual Meeting is a prerequisite for enrolling in any Courses or Master Courses, and each requires a separate fee. **In-person registration for courses will commence at noon on Friday, May 3, and will take place in the Crystal Palace at the Javits Center.**

Ensure you seize this opportunity to expand your expertise and network with peers and leaders in the field.

General Information

Education Center

Special Events Hall 1D, Foyer

Saturday – Wednesday 7:30 a.m. – 5:15 p.m.

Education Information

Visit the Education Center for insights into APA's educational offerings both online and post-meeting. APA administration members will be on hand to address inquiries regarding Maintenance of Certification (MOC), Continuing Medical Education (CME), and Annual Meeting programs. This is also your opportunity to discover how APA's educational resources can support your ongoing learning needs.

APA Meetings App Assistance

First-time attending the APA Annual Meeting or new to the APA Meetings App? Drop by the Education Center for a hands-on demonstration of the mobile app and familiarize yourself with its features.

Scientific Program Concierge

For details on scientific sessions, guidance on submitting a session for the 2025 Annual Meeting, or to make changes to your current session, the Scientific Program Concierge is your go-to resource.

Presenter Changes

In the event of an emergency requiring a last-minute change of presenter, please notify the Scientific Program Concierge at the Education Center at least 24 hours before your session begins. It's essential that all presenters complete a financial disclosure, a presenter release form, and receive approval from the Scientific Program Committee.

APA Scholar Check-In

Scholars who have applied in advance for the APA Scholar program should check in at the Education Center at least 30 minutes before their session starts to receive pertinent instructions.

OnDemand Sales

Crystal Palace

Saturday – Wednesday 7:30 a.m. – 5:30 p.m.

APA Annual Meeting OnDemand includes over 300 hours of educational content from the Annual Meeting. Content is available online within 24 hours.

Exhibitor Registration

Crystal Palace

Friday Noon – 6:00 p.m.

Saturday – Tuesday 7:30 a.m. – 1:00 p.m.

Registered exhibitors will receive red badges that will permit access only to his/her exhibit booth in the Exhibit Hall and to ride the APA shuttle bus. If an exhibitor wants to attend sessions, he/she must register for the meeting and pay the appropriate fee.

Exhibits

Exhibit Halls 3AB

Saturday 11:45 a.m. – 4:00 p.m.

Sunday - Monday 9:15 a.m. – 4:00 p.m.

Exhibit Hall Closed 10:30a.m. - 11:45a.m.

Tuesday 9:15 a.m. – 1:30 p.m.

For details on all of the Exhibit Hall activities, please refer to the Exhibit Guide, page 123.

Mid-Day Mingles

Enjoy an extended stay to meet exhibitors and learn more about their products and services from 11:45 a.m. – 1:30 p.m. Complimentary snacks will be available throughout the hall.

See Exhibition Information, page 124 for more information on Exhibit Hall activities.

The Stage

This is the hub of the Exhibit Hall where you can rest, recharge electronic devices and take advantage of great non-CME presentations:

Coffee & Conversations

Join thought leaders as they present 30-minute talks on engaging, timely topics over a cup of coffee. See page 130 for details.

Product Showcases

Exhibiting pharmaceutical companies host 60 minute, non-CME presentations. A boxed breakfast, lunch or snack (dependent on presenting company) is provided. Seating is limited to 225. See page 126 for details..

General Information

First Aid

Behind Room 1E

Tuesday (April 30) –

Wednesday (May 8) 7:00 a.m. – 6:00 p.m.

Friday – Wednesday 7:00 a.m. – 5:00 p.m.

Meetings Office

Room 2D10-2D11, Level 2

Friday – Wednesday 7:00 a.m. – 5:00 p.m.

Members of the APA Administration located in the Meetings Office are in charge of the logistics for the meeting. Lost and found is also located in this office.

Mother's Room

Room 2D09, Level 2

Participation Policy

The American Psychiatric Association's policy is to promote an environment of mutual respect, well-being, and collegiality at its meetings. APA values and benefits from the diverse opinions its members hold on the issues with which the Association and the psychiatric profession are confronted. All individuals at the meeting agree to conduct themselves in a manner appropriate for health care professionals. This includes respect for the intellectual property of others, proper display and use of meeting badges, and the avoidance of aggressive or inappropriate behavior towards others. Individuals participating in APA sponsored meetings agree to listen respectfully to all views presented, be courteous to others regardless of whether you agree or disagree with the views presented, and to exhibit

the professionalism and collegiality expected of psychiatrists. If an individual believes that these rules have been violated or acceptable social decorum has otherwise been breached, they shall contact a member of the APA Administration to help with the situation. APA reserves the right to remove any posted content and to remove meeting access rights of any individual violating this policy and will not provide a refund.

Publishers Book Expo/Career Expo

Exhibit Hall 3AB, Level 3

Javits Center

Saturday 11:45 a.m. – 4:00 p.m.

Sunday - Monday 9:15 a.m. – 4:00 p.m.

Tuesday 9:15 a.m. – 1:30 p.m.

Registration

Admission to all sessions is by registration badge only. A separate fee is required for all courses and master courses.

Crystal Palace, Javits

Friday Noon – 6:00 p.m.

Saturday – Wednesday 7:30 a.m. – 5:00 p.m.

The registration fee covers admission to all sessions (except courses and master courses) and shuttle buses and includes a badge and copy of the *Guide to the 2024 Annual Meeting*. The *Guide*, *Syllabus and Proceedings*, and *Poster Proceedings* will be published online for downloading.

Registration badges are required for all sessions and the Exhibit Hall. Only an APA member badge will admit you to the Business Meeting.

Scientific Session Capacity Guidelines

To ensure a productive and safe experience for all attendees during scientific sessions, we kindly request your cooperation with the following capacity management guidelines in the event of overcrowding:

- ▶ Please choose seats as close to the front of the room as possible to maximize space.
- ▶ Move towards the center of your row to occupy all available seats, leaving aisle seats open for latecomers.
- ▶ Avoid standing or sitting in the aisles, and do not lean against the walls to keep pathways clear and comply with safety regulations.

General Information

Please note that sessions may be closed by the fire marshal if overcrowded. If you cannot find a seat, we encourage you to attend an alternative session. Your understanding and cooperation are greatly appreciated to ensure a smooth and enjoyable experience for all participants.

Session Overflow Theater

Special Events Hall 1D Level 1, Javits Center

Sessions will occasionally reach capacity. If this is the case, the session may be made available in the **Session Overflow Theater**.

Bring your personal phone or mobile device and a pair of headphones to access audio of any session currently available in the overflow theater.

Overflow information, including availability of sessions in the overflow theater, will be posted in the APA Meetings App.

If a session reaches capacity, it may be made available shortly in the overflow theater, Special Events Hall 1D, Foyer just below registration area in the Javits Crystal Palace.

If so directed, please follow the instructions of APA Administration to the overflow theater. Outside the doors of the theater, you will find electronic signs where you can scan a QR code on your phone or mobile device to access the audio of any session currently available in the overflow theater. A link is also available in the mobile app.

Once you have connected to your session of choice, please proceed into the theater, and choose any seat. You will be able to listen to the presentation on your device and watch on the screens at the front of the room. For the best experience and as a courtesy to others in the theater, **please wear headphones while watching presentations in the overflow theater.**

Session Slides

Some presenters have elected to provide their presentation slides to meeting attendees in advance. Should session slides be available, they can be downloaded from the APA Meetings App under the session description. If slides are not available in the app, this means the session presenters did not provide their slides in advance.

Smoking Policy

Smoking is not allowed anywhere in the Javits Center.

Audio and Visual Reproduction Policies

Attendees are not permitted to photograph or video record any session, including any slides presented during a session. This prohibition includes photographs taken with cell phone cameras. Audio recording using small portable recorders is permitted for personal use only, unless prohibited by the individual session presenter(s). Use of larger, professional recorders is permitted only for registered members of the working press in accordance with APA press policies. Media will be identified with silver badges, and approved equipment will be identified with APA Newsroom stickers. APA's authorized recording vendor will be clearly identified when recording sessions.

Wi-Fi

Attendees will have free wireless access in all public spaces and meeting rooms.

There is also free Wi-Fi at The Stage (Exhibit Halls 3AB, open during exhibit hours), with charging stations for electronic devices.

Special Acknowledgments

American Association of Chairs of Departments of Psychiatry: co-support of the APAF/AACDP Research Mentorship Award.

American Psychiatric Association Foundation: support of the Child and Adolescent Psychiatry Fellowship; Public Psychiatry Fellowship; Diversity Leadership Fellowship; Jeanne Spurlock Congressional Fellowship; American Psychiatric Leadership Fellowship; Community Diversity Fellowship; and the Psychiatric Research Fellowship.

American Academy of Psychiatry and the Law: support of the Manfred S. Guttmacher Award and the Isaac Ray Award.

Association of Gay and Lesbian Psychiatrists: co-support of the John Fryer Award.

Association of Women Psychiatrists: co-support of the Alexandra Symonds Award Lecture.

Estate of Agnes Purcell McGavin: support of the Agnes Purcell McGavin Awards for Distinguished Career Achievement in Child and Adolescent Psychiatry, and for Prevention.

Estate of Dorothy C. Kempf: support of the Kempf Fund Award for Research Development in Psychobiological Psychiatry Awards.

Estate of Judd Marmor, M.D.: support of the Judd Marmor Award.

Estate of Kun-Po Soo, M.D., Ph.D.: support of the Kun-Po Soo Award.

The Nasrallah family: support of the Nasrallah Family Award for Advances in Psychiatric Neuroscience.

National Institute on Drug Abuse, American College of Neuropsychopharmacology, Society of Biological Psychiatry and Medical Technology Enterprise Consortium: the Research Colloquium for Junior Investigators.

Scattergood Program for Applied Ethics at the University of Pennsylvania and Saint Elizabeths Hospital, Washington, D.C.: recognized for its collaboration with the 2024 Scientific Program Committee in the development of an ethics track for the 2024 Annual Meeting.

Substance Abuse and Mental Health Services Administration: support of the SAMHSA Minority Fellowship Program and the APAF Notice. Talk. Act at School Mental Health Awareness Training.

The Ittleson Foundation: support of the Blanche F. Ittleson Award for Research in Child Psychiatry.

National Institute on Alcohol Abuse and Alcoholism: organizing and support of the 2024 Annual Meeting Research Track.

Sozosei Foundation: support of the APAF Community Diversity Fellowship.

Brave of Heart Fund, founded by the Foundations of New York Life and Cigna and administered by E4E Relief: support of Frontline Connect, Mental Health for the Health Care Workforce.

Mental Health INNOVATION ZONE

An American Psychiatric Association Initiative

Use the **#APAAM24** hashtag or **#MHIZ** to stay connected throughout the meeting.

The Mental Health Innovation Zone is a tech conference within the APA Annual Meeting, gathering innovators and entrepreneurs to explore the future of mental health technology and innovation in mental health care. This year, the Zone will feature a series of panel discussions on launching a startup in the mental health care industry as well as how psychiatrists can utilize AI-powered tools to enhance mental health care delivery, making it more accessible and equitable.

WELCOME SESSION

Saturday, May 4, 9:30 a.m. - 10:15 a.m.

Mental Health Innovation Zone Welcome Session & Kick-Off

Welcome to the American Psychiatric Association's Mental Health Innovation Zone! Join us for an inspiring kick-off session as we embark on a journey of transformation and breakthroughs in mental health care. We'll explore cutting-edge innovations and creative solutions that are reshaping the landscape of psychiatry. This is a unique opportunity to hear from industry experts, thought leaders, and fellow change-makers with the latest technologies.

SATURDAY MHIZ SESSIONS

Saturday, May 4, Noon - 12:45 p.m.

Innovations for Mental Health Disparities & Inequities

Be a part of the mental health revolution! Technology has opened doors to mental health support like never before, boosting access with the potential to bridge healthcare disparities. But how do mental health technologies currently affect underserved and underrepresented communities? Join us as we discuss mobile apps, virtual platforms, and online tools for psychiatric services. Discover how technology can empower mental health clinicians with data-driven insights, progress tracking, telepsychiatry, and seamless collaboration. Come away empowered to learn how to build a more inclusive and equitable mental health care system.

Saturday, May 4, 12:45 p.m. - 1:30 p.m.

Mental Healthcare Investments

Calling all aspiring psychiatric entrepreneurs! Securing funding for your startup can be a formidable challenge. Our panel is here to guide you through the intricate landscape of venture capital and funding in the realm of mental health. During this session, we will unravel the challenges associated with securing funding for mental health startups. By shedding light on the common misconceptions surrounding fundraising and venture capital — and the hurdles faced when gaining traction for innovative ideas — we aim to equip entrepreneurs with a comprehensive understanding of the funding landscape. Get deeper insights into the world of venture capital and funding for mental health startups as we demystify the process, identify viable investment

options, and provide strategies to overcome challenges. Join our panel of experts as we empower you on your journey to bring innovative mental health solutions to fruition.

Saturday, May 4, 1:45 p.m. - 2:15 p.m.

Sponsor Presentation – Otsuka Precision Health, Inc.:

Learn More About the First Prescription Digital Therapeutic of its Kind Authorized By the FDA for the Adjunctive Treatment of MDD Symptoms

SUNDAY MHIZ SESSIONS

Sunday, May 5, 9:30 a.m. - 10:15 a.m.

Technology in Collaborative Care

Step into the frontier of Collaborative Care in Psychiatry, bringing together primary care and psychiatric experts to transform patient care. Explore how psychiatry and technology can enhance Collaborative Care, all orchestrated to enhance treatment and support for patients with mental health conditions. Learn how informatics, apps, and telehealth can improve seamless communication, shared decision-making processes, and the integration of personalized care plans. Witness how this innovative model of care is reshaping the landscape of mental health services.

Sunday, May 5, Noon - 12:45 p.m.

Society of Digital Psychiatry: Pathways for Transforming New Ideas into Reality

Moving mental health innovation from ideas to reality is challenging and requires a diverse team. The Society of Digital Psychiatry aims to offer education, tools, and connections to help anyone innovate. This panel is designed to share the stories and perspectives of innovation from the lens of lived experience, clinicians, researchers, research funders, and journals.

Sunday, May 5, 12:45 p.m. - 1:30 p.m.

Chatbots & Generative AI Step into the world of chatbots and conversational agents—and understand its impact on mental health support! Explore how chatbots and generative AI offer innovative approaches in mental health care by providing accessible, immediate support for patients, facilitating screening and initial assessments, and delivering therapeutic interventions tailored to individual needs, thereby augmenting traditional mental health services.

Delve into the ethical considerations of integrating AI in mental health care and uncover the challenges associated with this cutting-edge solution. Don't miss the chance to be part of this innovative conversation!

Sunday, May 5, 2:00 p.m. – 3:00 p.m.

**Sponsor Presentation – Wellcome Mental Health:
An Introduction to Wellcome's Mental Health Strategy &
Funding Remit**

Join us to hear about the exciting work happening at Wellcome in Mental Health Science. Discover our global funding opportunities in early intervention for Psychosis, Anxiety, and Depression. Gain insights into our mental health strategy, funding remit, and upcoming funding opportunities. Don't miss out on this chance to be part of the transformative journey in mental health.

MINDGAMES

MindGames finalists compete in a final, Jeopardy-style round live at the 2024 APA Annual Meeting in New York City!

Sunday, May 5, 5:30 p.m. – 7:00 p.m.

MindGames, APA's **national residency team competition**, is a fun way for residents to test their knowledge on patient care, medical knowledge, and psychiatric history while earning bragging rights for their program.

MONDAY MHIZ SESSIONS

Monday, May 6, 9:00 a.m. – 9:30 a.m.

Sponsor Presentation – Otsuka Precision Health, Inc.:

Learn More About the First Prescription Digital Therapeutic of its Kind Authorized By the FDA for the Adjunctive Treatment of MDD Symptoms

Monday, May 6, 9:30 a.m. – 10:15 a.m.

Youth Mental Health Innovation

Understand the landscape of innovative mental health solutions for children & adolescents! Discover pioneering methods, inventive answers, and transformative concepts that are reshaping how we provide support for young minds. From the latest technology to inventive initiatives, be at the forefront of youth mental health care to bring about positive change for the next generation.

MINDGAMES MASTERS

Subspecialty Review for the General Psychiatrist

MindGames Masters Live Event

Monday, May 6, Noon – 1:00 p.m.

This is a three-part educational experience that allows **all psychiatrists** to assess their knowledge and learn more about five subspecialties in an engaging, fun, and competitive format.

Participants complete a self-assessment, and the three highest scorers will have the option to participate in the MindGames Masters Live event at APA's Annual Meeting in New York City, New York at Noon on Monday May 6, 2024. Additionally, MindGames Master learners will participate in a four hour in-person training course during the 2024 APA Annual Meeting.

TUESDAY MHIZ SESSIONS

Tuesday, May 7, 8:00 a.m. – 8:45 a.m.

Lived Experience Innovation

The Mental Health Innovation Zone is proud to present a pioneering session on "Lived Experience Innovation." This engaging discussion will offer an intimate look into the journeys of distinguished individuals who have navigated the challenges and triumphs of integrating mental health solutions with cutting-edge technology.

Our panel of visionaries, comprised of accomplished entrepreneurs, angel investors, and CEOs, will delve into their personal paths within the mental health technology industry. Gain unparalleled insights into the real-world applications of mental health innovations, learning firsthand about the obstacles these leaders have overcome, the strategies that have propelled their successes, and the lessons learned along the way.

**The 2024 Mental Health
Innovation Zone is sponsored by:**

Mental Health INNOVATION ZONE

An American Psychiatric Association Initiative

TUESDAY MHIZ SESSIONS (CONT.)

Tuesday, May 7, 9:00 a.m. - 9:45 a.m.

Trials & Tribulations of Startups

Embarking on a startup journey in the mental health sector offers unique challenges and opportunities. Achieving traction is crucial for bringing transformative solutions to life. This journey isn't just about innovation and business execution; it also involves navigating an emotional rollercoaster. Entrepreneurs face highs of innovation and lows of setbacks, testing resilience and fueling growth amidst the stark realities of startup life. Our program delves into common obstacles, from funding and team building to market competition and regulatory hurdles, while also addressing the mental health challenges entrepreneurs encounter. Gain insights from experienced entrepreneurs on overcoming both external challenges and internal struggles, preparing you for the multifaceted world of startups. (cont.)

Tuesday, May 7, 9:45 a.m. - 10:30 a.m.

How to Use AI as a Psychiatrist

Embark on a transformative journey at the intersection of augmented intelligence and psychiatric care. This session delves into the capabilities of AI to refine patient care through innovative diagnostic, treatment, and engagement strategies. Explore the ethical dimensions, moral consequences, and professional responsibilities inherent in integrating AI into psychiatric practices. Learn practical applications of AI tools in your practice, enhancing both patient outcomes and clinical efficiency. Featuring insights from physician experts at the forefront of augmented intelligence in healthcare, this dialogue offers a comprehensive look into the future of psychiatry in the AI era, equipping attendees with the knowledge to harness AI's potential responsibly and effectively.

Tuesday, May 7, Noon - 1:30 p.m.

Psychiatry Innovation Lab

The Psychiatry Innovation Lab, a cornerstone of the APA's Mental Health Innovation Zone, is designed to foster groundbreaking initiatives aimed at revolutionizing mental health care. As a nurturing ground for nascent ideas and ventures, it offers a platform for education, collaboration, and the exchange of innovative solutions and concepts in mental health technology. Engage with this vibrant gathering of mental health pioneers to explore the latest in technological advancements and collaborative opportunities aimed at enhancing mental health care.

Disclosure Information

American Psychiatric Association Continuing Medical Education Policy on Full Disclosure

For all program planners and presenters at CME activities, the American Psychiatric Association requires disclosure of all relevant financial relationships with any commercial interest in any amount occurring within the past 12 months, including those of spouse/partner. A commercial interest is an entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients. Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria for promotional speakers' bureau, ownership interest, or other financial benefit. An "affiliation" may include holding a position on an advisory committee, speakers' bureau or some other role or benefit to a supporting organization.

In compliance with the ACCME's Standards for Commercial Support, the APA has a management of conflict (MCI) process for all CME activities. This process ensures that all conflicts of interest are identified, managed and resolved prior to the educational activity. Additionally, the prospective audience must be informed of the presenters' or program planners' affiliations with every commercial interest by an acknowledgment in the online disclosure index and verbal or visual disclosure to participants at

the session (disclosure by slide is required if audiovisual equipment is used for the presentation). Disclosing to learners the relevant financial relationships that were present and resolved assists learners in assessing the potential for bias in the information that is presented. The APA also requires verbal disclosure of discussion of unlabeled uses of a commercial product or investigational use of a product not yet approved for this purpose.

The presenters and planners listed in section A of the online disclosure index indicated that either they or a spouse/partner have a financial interest or other affiliation with a commercial entity producing, marketing, re-selling, or distributing health care goods or services consumed by or used on patients; the company name and affiliation is also listed. Providers of clinical service directly to patients are not considered to be commercial interests. The second group of presenters and planners, listed in section B, indicated neither they nor a spouse/partner have any relationship to disclose.

All presenters and planners must complete a disclosure in order to participate in an APA CME activity. The online disclosure listing includes both the presenters and planners of the Scientific Program and New Research Poster Sessions.

For disclosure information for the 2024 Annual Meeting program, visit

psychiatry.org/AMdisclosure

AMERICAN
PSYCHIATRIC
ASSOCIATION

May 4-8, 2024 • New York City

CERTIFICATE OF ATTENDANCE

How do you obtain it?

GET YOUR CERTIFICATE ONLINE OR IN PERSON

To receive your certificate in person:

Complete the general evaluation form at the
CME Certificate of Attendance Booth

Located in the Education Center,
Special Events Foyer 1D

Types of Certificates

- Certificate of Credit for physicians
- Certificate of Attendance for non-physicians

CERTIFICATE IS AVAILABLE DURING OR AFTER THE MEETING

CME Certificate of Attendance Booth

Location: Education Center, 1Javits Center,
Special Events Foyer 1D

Hours of Operation:

May 4-8 7:30a.m. – 5:30p.m. Daily

*Note: The Royal College will recognize the number of
participation hours as MOC Program Section 1 accredited
group learning credits.*

To receive your certificate online:

Complete the online evaluation at
psychiatry.org/AMcme

*Retain badge number to access evaluation online

The website will remain active until:
August 8, 2024

CME credit for APA members will be recorded
at apaeducation.org and transferred to your
ABPN Physician Portal in October 2024.

Accreditation & Designation

In support of improving patient care, American Psychiatric Association (APA) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The American Psychiatric Association designates this live activity for a maximum of 44 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For questions, contact the American Psychiatric Association Office of Accreditation & Compliance:
educme@psych.org

Program

Monday's Program	77
Tuesday's Program	93
Wednesday's Program	107

Program information listed as of April 7, 2024. For up-to-date session details, please download the APA Meetings App.

Format Descriptions

Courses/Master Courses

Courses are designed to emphasize learning experiences that actively involve participants, include the opportunity for informal exchange with the faculty, and provide a deeper exploration of a topic than would be found in the general meeting program. Offered in four-hour (half-day), and eight-hour (full-day) sessions, courses either review basic concepts in a special subject area or present advanced material on a circumscribed topic. Courses require an additional fee for enrollment.

FOCUS Live

These 90-minute sessions allow participants to test their knowledge using an interactive audience response technology. Experts, who served as guest editors of *FOCUS*, will lead lively multiple-choice question-based discussions, and the audience will enter their answers with their mobile devices. Results are instantly tallied and projected on the screen, providing participants with immediate feedback. Attendees are expected to bring their own devices for use during the session. MOC-2 credit is available for participants in *FOCUS* Live sessions.

General Sessions

General Sessions emphasize learning through a combination of lecture and audience interaction, such as role playing and small group discussion. All General Sessions are 90 minutes long and comprise the majority of the scientific program at the Annual Meeting.

Learning Lab

The Learning Lab introduces an exciting way to learn at the Annual Meeting. Each session in the Learning Lab transforms learning through collaboration, rich discussion around issues impacting psychiatry and hands-on learning.

Poster Sessions

This format allows for presentations of very recent findings. Posters are visual, self-explanatory presentations offered in three categories: International, Medical Student/Resident Competition and New Research.

Presidential Sessions

Presidential Sessions are prestigious 90-minute presentations by experts in their respective fields, specially invited by the APA President to speak at the meeting. These sessions feature the most prestigious speakers and will cover topics of the greatest relevance to psychiatry today.

APA Publishing Sessions

These sessions, organized by American Psychiatric Publishing, are 90 minutes and feature presentations on a particular topic by APA authors and editors. During these sessions, attendees can meet and interact with authors and editors of APA publications.

Learning Labs

The Learning Lab introduces an exciting way to learn at the APA Annual Meeting. Every session in the Learning Lab transforms learning through collaboration, rich discussion around issues impacting psychiatry, and hands-on learning. Sessions include a resident leadership boot camp, crisis simulation, long-acting injectables workshop, and much more.

Learning Labs are located in Room 3D02. For more information on Learning Lab sessions, please see the APA Meetings App.

SATURDAY, MAY 4

8:00 a.m. – 9:30 a.m.

Shrink Think: Interactive Classroom Games to Teach Psychiatric Interviewing Techniques

Gabriella Miggins, Dean Atkinson, M.D., Sandra Jovanovic, M.D., Mario Montelongo, M.D.

SUNDAY, MAY 5

8:00 a.m. – 9:30 a.m.

Mental Health and Wellbeing: An Interactive Workshop for Trainees

Carol Bernstein, M.D. Laurel Mayer, M.D.

10:30 a.m. - noon

Confronting Stigma and Bias Through the Arts: An Interactive Visual Thinking Strategies Session

Margaret Chisolm, M.D., Mary Blazek, M.D., Meher Kalkat, Susan Lehmann, M.D.

1:30 PM – 3:00 PM

Supporting Person-Centered Care: A Simulation of Hearing Voices

Sherin Khan, L.C.S.W.

3:45p.m. - 5:15 p.m.

Measurement Based Care Learning Lab, Part I

David Kroll, M.D., Carlene MacMillan, M.D., Bonnie Zima, M.D., M.P.H., Kathryn Ridout, M.D., Ph.D.

MONDAY, MAY 6

1:30 PM – 3:30 PM

Measurement Based Care

Kathryn Ridout, M.D., Ph.D., Erik Vanderlip, M.D., M.P.H., Carol Alter, M.D., David Kroll, M.D.

3:30 PM- 5:00 PM

Special Forum with APA Board of Trustees Members

TUESDAY, MAY 7

8:00 AM – 9:30 AM

Give it Your Best Shot: Learning How to Prepare and Administer Long-Acting Injectable Medications in Psychiatry (not eligible for CME credit)

Megan Ehret, PharmD, M.S., B.C.P.P., Donna Rolin, Ph.D., A.P.R.N., Robert Cotes, M.D., Kathryn Hanley, L.P.A., R.N., Sarah MacLaurin, P.M.H.N.P.-B.C.

1:30 PM – 3:00 PM

Advancing Practice for Permanency and Well-Being for Children, Youth and Families

Lisa Maynard, L.M.S.W., Jane Dugan-Burdette, M.A.

3:45 PM – 5:15 PM

Rendering Safe and Therapeutic De-escalation Interventions

Jose Viruet, L.C.P.C.

WEDNESDAY, MAY 8

8:00 a.m. – 9:30 a.m.

Learning by Experience: Using Simulation-Based Learning in Psychiatric Teaching

Yelu Zhang, M.D., Seo Ho Song, M.D., Paulo Lizano, M.D.

Session Overflow

Sessions will occasionally reach capacity. If this is the case, the session may be made available in the **Session Overflow Theater**.

Bring your personal phone or mobile device and a pair of headphones to access audio of any session currently available in the overflow theater.

Overflow information, including availability of sessions in the overflow theater, will be posted in the APA Meetings App.

Session Overflow Theater Special Events Hall 1D, Foyer

Sessions will occasionally reach capacity. If this is the case, the session may be made available in the Session Overflow Theater.

Bring your personal phone or mobile device and a pair of headphones to access audio of any session currently available in the overflow theater.

Overflow information, including availability of sessions in the overflow theater, will be posted in the APA Meetings App.

If a session reaches capacity, it may be made available shortly in the overflow theater, Special Events Hall 1D, Foyer just below registration area in the Javits Crystal Palace.

If so directed, please follow the instructions of APA Administration to the overflow theater. Outside the doors of the theater, you will find electronic signs where you can scan a **QR code** on your phone or mobile device to access the audio of any session currently available in the overflow theater. A link is also available in the mobile app.

Once you have connected to your session of choice, please proceed into the theater, and choose any seat. You will be able to listen to the presentation on your device and watch on the screens at the front of the room. For the best experience and as a courtesy to others in the theater,

For the best experience and as a courtesy to others in the theater, **please wear headphones while watching presentations in the overflow theater.**

Annual Meeting Tracks

APA's Annual Meeting covers the full breadth of psychiatric topics, with a focus on the most pressing issues facing your practice and patients.

The following track information can help you identify relevant sessions and navigate the meeting.

- Humanities Track
- DEI Track
- Clinical Updates Track
- Ethics Track
- Residents, Fellows and Medical Students Track
- Technology Track
- NIMH Track
- International Medical Graduates (IMG) Track

About the Humanities Track

Welcome to New York City and the 2024 APA Program!

At this year's annual meeting, the APA launches its very first Humanities Track, an opportunity for attendees to experience seven different takes on the relevance of the humanities

to psychiatric practice and education.

In contemporary liberal arts universities, humanities encompass pretty much every subject that is not a natural or applied science. The territory of the humanities — literature, history, philosophy, visual and performing arts — is thus vast in scope and rich in possibility, even as it is thinly represented in modern medical practice. As practitioners of an applied science, however, most physicians including psychiatrists chose their undergraduate majors from within the so-called

STEM disciplines. To do otherwise was vaguely suspect, even as some of us have continued to carry on secret lives as artists of various ilk.

In seven workshop sessions, the Humanities Track aims to showcase some of the ways colleagues integrate the humanities into their work as psychiatrists. From learning how psycho-biographical tools can illuminate the modern relevance of a medieval saint to experiencing a psychiatry class using an innovative humanities-grounded teaching model; from seeing how photography can be used to facilitate psychotherapy to exploring how narrative techniques can improve history-taking; from using the visual arts to confront stigma and bias to practicing techniques from improvisatory theater to improve psychiatric interviewing skill: this new track offers something for anyone who wants to step out of their comfort zone.

Enjoy!

Michael Bostwick, M.D.

Chair, Scientific Program Humanities Committee

Humanities Track

Artistic media such as music, paintings, literature, poems, and theatre are often moving sources of emotional expression, both for the artist as well as their audience. The field of Medical Humanities is considered an important complement to psychiatry's basic sciences and clinical mission, drawing on the creative and intellectual strengths of disciplines in the arts, social sciences, and the humanities to explore experiences of health and illness.

The humanities track at the 2024 Annual Meeting will explore art in multiple forms including photography, drama, and music as it relates to mental health and psychiatry presented by experts in the field of psychiatry and the arts. The track will feature narrative medicine, visual thinking strategies, poetry, and literature.

Saturday May 4	10:30 a.m. - Noon	Joan of Arc: Neuroatypicality and the Formation of an Enduring Saint and Feminist Icon
	1:30 p.m. - 3:30 p.m.	The Role of the Photographic Arts in Psychiatry
	3:45 p.m. - 5:15 p.m.	Medical Narrative: A Tool of Humanistic Innovation
Sunday May 5	10:30 a.m. - Noon	Confronting Stigma and Bias Through the Arts: An Interactive Visual Thinking Strategies Session
	3:45 p.m. - 5:15 p.m.	Improv-Ing the Psychiatric Interview
Tuesday May 7	8:00 a.m. - 9:30 a.m.	Disrupting the Medical Education Status Quo: Experiencing a Narrative-Centered, Humanistic, Interactive Teaching Model
	8:00 a.m. - 9:30 a.m.	Help for the Healer: A Statewide Initiative to Support Medical Professionals

Diversity & Health Equity Track

Racial/ethnic, socioeconomic, and sexual minorities often suffer from poor mental health outcomes due to multiple sociopolitical determinants, including inaccessibility of high-quality mental health care services, cultural stigma surrounding mental health care, discrimination, and overall lack of awareness regarding mental health. This track will examine issues related to health equity and social determinants of health in the care of those with mental illness.

Saturday
May 4

8:00 a.m. - 9:30 a.m. Model Minority Internalization: Asian Identity from a Psychodynamic Perspective

1:30 p.m. - 3:00 p.m. Being Black in America: Lived Experience and its Impact on Mental Health

3:45 p.m. - 5:15 p.m. Alzheimer's disease and cognitive disorders in geriatric Hispanic/Latinos. Why doesn't "One Size Fits All" approach work?

Sunday
May 5

8:00 a.m. - 9:30 a.m. LGBTQ+: A Primer for Mental Health Providers

10:30 a.m. - Noon Kinky is not a diagnosis: What every psychiatrist should know about sex and relationships

3:45 p.m. - 5:15 p.m. The Broadway musical Ragtime and the American Dream: Exploring Racial injustice, Trauma, Immigrant Experiences

Monday
May 6

1:30 p.m. - 3:00 p.m. Latinx 2024. Beyond the social determinants of minoritized population health. How do we put it all together?

1:30 p.m. - 3:00 p.m. The Psychiatric Aspects of Assimilation: from Consternation and sequestration to assimilation

3:45 p.m. - 5:15 p.m. Racial, Gender, and Sexual Orientation Microaggressions Experienced in Healthcare and Strategies to Overcome

Tuesday
May 7

8:00 a.m. - 9:30 a.m. Trigger Warning: Diverse Approaches to Firearm Injury Prevention

01:30 PM - 03:00 PM Bias at the Bedside: A Toolkit for Responding to Bias from Patients and Family Members

Wednesday
May 8

10:30 a.m. - Noon It's Not What You Said It's How You Said It — Overcoming Challenges When Evaluating The Mental Status Of Limited English Proficiency Patients

10:30 a.m. - Noon Shattering The Stigma of Psychiatry by reaching out to 'The Unreached' - The Wandering Mentally Ill Destitute on the Streets of India

3:45 p.m. - 5:15 p.m. Unstuck: Breaking the Bamboo Ceiling

Clinical Updates Track

The popular Clinical Updates Track includes practical and pragmatic training. It includes 18 sessions by renowned experts presenting on the practical domains clinicians deal with every day. The presenters combine their expertise with tangible learning points that provide attendees with a clear “what and why,” which can be applied directly into their practice, right away. The domains covered are based on ABPN’s core competencies and include:

- » Mood Disorders
- » Substance Use Disorders
- » Anxiety Disorders
- » Personality Disorders
- » Technology Addiction
- » Suicide
- » Weight Gain and Obesity
- » Women’s Mental Health and Reproduction

Saturday May 4	8:00 a.m. - 9:30 a.m.	Clinical Update on Personality Disorders: Diagnosis and Treatment
	10:30 a.m. - Noon	Obesity in Mental Illness: Iatrogenic and Intrinsic Factors, Prevention and Treatment
	1:30 p.m. - 3:00 p.m.	Obsessive-Compulsive Spectrum Disorders: Clinical Presentations and Treatments
	3:45 p.m. - 5:15 p.m.	Navigating the Storm: Understanding Irritability and Disruptive Behaviors in Youth
Sunday May 5	8:00 a.m. - 9:30 a.m.	Reviving Lithium: An Undervalued Gem in Psychiatry
	10:30 a.m. - Noon	Everything the Psychiatrist Needs to Know about ECGs
	1:30 p.m. - 3:00 p.m.	Beyond Clutter: A Comprehensive Exploration of Hoarding Disorder and Emerging Research Horizons
	3:45 p.m. - 5:15 p.m.	Autism and Neurodivergent Individuals Across the Lifespan
Monday May 6	8:00 a.m. - 9:30 a.m.	Suicide Across the Board: Risk Factors, Assessments, And Interventions
	1:30 p.m. - 3:00 p.m.	Worry, Worry, Worry: The treatment of Anxiety Disorders and PTSD
	3:45 p.m. - 5:15 p.m.	ADHD Across the Lifespan: Getting up to Speed
Tuesday May 7	8:00 a.m. - 9:30 a.m.	The Neuromodulation Revolution: Novel Approaches to Difficult-to-Treat Neuropsychiatric Illness
	1:30 p.m. - 3:00 p.m.	Real World Strategies for BP II: Recognition and Management Under Conditions of Uncertainty
	3:45 p.m. - 5:15 p.m.	An Overview of All Antipsychotics: How Far Have We Come?
Wednesday May 8	8:00 a.m. - 9:30 a.m.	Technological Addictions: The New Frontier in Addiction Psychiatry
	10:30 a.m. - Noon	Pharmacological Approaches to Treatment-Resistant Depression (TRD)
	1:30 p.m. - 3:00 p.m.	Emerging Concepts in Difficult-to-Treat Late-Life Depression
	3:45 p.m. - 5:15 p.m.	Psychiatric Update on Reproductive Mood Disorders

Ethics Track

This year's Ethics Track features a range of topics at the forefront of psychiatric practice. Past APA presidents and current leaders in psychiatric ethics present an educational panel on the legal and ethical controversies surrounding medical aid in dying (MAID), calling on colleagues from Canada and geriatric psychiatry to explore the psychosocial and cultural factors that influence decision-making processes for both patients and healthcare clinicians.

Saturday
May 4

3:45 p.m. - 5:15 p.m.

Medical Assistance in Dying and The Psychiatrist's Role: An Overview

Sunday
May 5

8:00 a.m. - 9:30 a.m.

On Decisional Capacity, Treatment Over Objection, and Hope in the Care of Severe SUDs

1:30 p.m. - 3:00 p.m.

The concept of SBIRTTM"H": incorporating harm reduction strategies into the SBIRT model

Monday
May 6

1:30 p.m. - 3:00 p.m.

A Call to Action to Make Psychedelic-Assisted Therapy Responsibly and Equitably Accessible

Wednesday
May 8

10:30 a.m. - Noon

Ethics Dilemmas in Psychiatric Practice

Residents, Fellows and Medical Students Track

Again this year, the APA Annual Meeting will include a track specifically tailored toward residents, fellows, and medical students. This track will provide trainees with a curated meeting experience and content throughout all five days of the meeting with topics ranging from how to apply to residency or get involved with the APA as a medical student, to developing your CV and getting started in your career.

Saturday May 4	8:00 a.m. - 9:30 a.m.	Aspiring to an Integrated and Balanced Life During Training
	10:30 a.m. - Noon	Securing the Digital Future: What Psychiatrists Need to Know About Health AI
	1:30 p.m. - 3:00 p.m.	Telehealth Best Practices
	1:30 p.m. - 3:00 p.m.	Meet and Greet with APA President: Careers in Addiction Psychiatry
	3:45 p.m. - 5:15 p.m.	TMS/Ketamine/ECT: What Residents and Trainees Need to Know
Sunday May 5	8:00 a.m. - 9:30 a.m.	Lifelong Learning and ABPN Certification: How to Not Peak as You Finish Training
	8:00 a.m. - 9:30 a.m.	Mental Health and Wellbeing: An Interactive Workshop for Trainees
	8:00 a.m. - 9:30 a.m.	When the Patient Isn't Getting Better: A Psychodynamic Perspective on the "Difficult" Patient
	10:30 a.m. - Noon	Association of Academic Psychiatry (AAP) Medical Student and Resident-Fellow Curriculum Vitae (CV) Bootcamp
	10:30 a.m. - Noon	Sub-Specialty Recruitment: Trends for Learners and Program Directors
	1:30 p.m. - 3:00 p.m.	"But I'm No Master Educator...": Chalk Talk Teaching Scripts to Facilitate Clinical Teaching for the Resident-as-Teacher
Monday May 6	3:45 p.m. - 5:15 p.m.	Why Is My Psychiatrist on Tiktok!? Answering the Ethical Questions of Psychiatric Involvement in Social Media
	8:00 a.m. - 9:30 a.m.	Mental Illness Beyond Bars: Psychiatrists' as a Contributor and Advocate for Change
	8:00 a.m. - 9:30 a.m.	Time IN the market is more important than TIMING the market: Financial Literacy for Medical Trainees
Tuesday May 7	1:30 p.m. - 4:30 p.m.	Medical Student Residency Fair (Not Available for CME Credit)
	8:00 a.m. - 9:30 a.m.	Applying to Psychiatry Residencies: A Discussion With Residency Directors and Residents
Wednesday May 8	10:30 a.m. - Noon	Boomers to Zoomers: Bridging the Gap of Inter-Generational Crosstalk

Technology Track

Technology has opened a new frontier in mental health care. How can we harness emerging treatments involving technology in the future, so that we keep our discipline on the cutting edge? The track will discuss digital health tools, social media and adolescent development, virtual reality, and other advancements in psychiatry.

Saturday

May 4

3:45 p.m. - 5:15 p.m.

Digital CBT for Treatment of Substance Use Disorders

3:45 p.m. - 5:15 p.m.

Digital Approaches to Diagnosing and Treating Substance Abuse Disorder: Advances in Technology, Regulation, and Training

Monday

May 6

3:45 p.m. - 5:15 p.m.

Virtual Reality in the Trenches: Hands-on Experience With Clinical VR Systems for Anxiety Disorders, PTSD, Pain Management, and ADHD Assessment

Tuesday

May 7

3:45 p.m. - 5:15 p.m.

Getting Intelligence: A Primer on AI for Psychiatrists

8:00 a.m. - 9:30 a.m.

Digital Wellness in a Social Media World: Navigating Information, Misinformation, and Mental Health

Wednesday

May 8

10:30 a.m. - Noon

Reflections on Technology Use in Psychiatry in the Last 30 years

NIMH Track

Keep up to date on the latest policy developments impacting your practice at the state and federal levels. Hear what's happening and what's coming next from key policy makers who advance mental health on a national scale. Learn how to make yourself heard, as a psychiatrist, in the discussion about social determinants of mental health.

APA partners with several government agencies to develop special sessions. This year's research track is hosted by a National Institute of Mental Health (NIMH). We will also feature sessions from NIAAA, SAMHSA and NIDA.

Sunday May 5	3:45 p.m. - 5:15 p.m.	Expanding 988 Suicide and Crisis Lifeline and Crisis Services and Research: What Psychiatrists Need to Know
Monday May 6	1:30 p.m. - 3:00 p.m.	Cutting Edge Mental Health Disparities Research: Current State and Future Directions
Tuesday May 7	8:00 a.m. - 9:30 a.m.	Brain Behavior Quantification and Synchronization: Multimodal Measurements in the Real World
	1:30 p.m. - 3:30 p.m.	Early Psychosis Care: From RAISE to EPINET and Beyond
	3:45 p.m. - 5:15 p.m.	Leveraging the All of Us Research Program Dataset to Support Mental Health Research and Advance Precision Medicine
Wednesday May 8	10:30 a.m. - Noon	75 Years of the National Institute of Mental Health: Current and Former Directors Perspective
	1:30 p.m. - 3:00 p.m.	Therapeutics Pipeline for the Treatment of Mood and Psychotic Disorders
	3:45 p.m. - 5:15 p.m.	Rigor, Translation, and Inclusion in NIMH-Supported Youth Mental Health Research to Advance Impact: Lessons Learned and Opportunities

International Medical Graduates (IMG) Track

International medical graduates have unique needs and considerations when navigating the mental health workforce. This track will provide IMGs with tools and tricks designed specifically for their unique situation and the issues they encounter on a daily basis.

Saturday

May 4

8:00 a.m. - 9:30 a.m.

True Tales of Leadership in Clinical, Organized and Academic Psychiatry

10:30 a.m. - Noon

“Building, Growing and Thriving in Academic Careers” with a focus on our international medical graduates

Sunday

May 5

3:45 p.m. - 5:15 p.m.

A Guide to Psychiatry Fellowship Applications

8:00 a.m. - 9:30 a.m.

Mental Health and Substance Use: Challenges and Opportunities in South Asian Population and IMG Perspective

8:00 a.m. - 9:30 a.m.

Career Navigation: Everything You Need to Know About J1 Waivers and Contract Negotiations

3:45 p.m. - 5:15 p.m.

Addressing Bias and Discriminations: the IMG Perspective

3:45 p.m. - 5:15 p.m.

The Badass IMG Women: Past, Present, Future

Tuesday

May 7

1:30 p.m. - 3:00 p.m.

Tips and Tricks for Success in the Psychiatry Residency Match

Daily Attendance Log

2024 Annual Meeting of the American Psychiatric Association • May 4-8, 2024 • New York City, NY

This form is **for your records** and not for submission. Use this page to keep track of your attendance. Reporting is on an honor basis; claim one credit for each hour of participation.

All scientific sessions listed in the Annual Meeting Program Guide are designated for **AMA PRA Category 1 Credits™**, except for Poster Sessions and where otherwise specified.

Participants can claim their CME certificate of credit or certificate of participation on or before August 8, 2024. **Certificates will not be issued after this date.**

Date/Time	Title of Session	# of Hours
Total		

SATURDAY

May 5, 2024

Opening Session

5:30 p.m. - 7:00 p.m.

Featuring

*A Conversation with Emmy
Award-Winning Journalist*

Anderson Cooper

Opening Session

May 4, 2024

5:30 p.m. - 7:00 p.m.

Hall 3E

The official kickoff to
#APAAM24

Featuring Remarks From:

Saul Levin, M.D., M.P.A.

APA CEO & Medical Director

Eric Williams, M.D.

Scientific Program Committee Chair

Petros Levounis, M.D., M.A.

APA President

Ramaswamy Viswanathan, M.D., Dr.Med.Sc.

APA President-Elect

The Opening Session will also feature the presentation of APA Gives Back to the Ali Forney Center, the introduction of distinguished guests from around the world, and a fireside chat with Anderson Cooper.

Opening Session Keynote: **Anderson Cooper**

Anderson Cooper is the anchor of CNN's Anderson Cooper 360°, a global newscast that goes beyond the headlines with in-depth reporting and investigations. The show airs weeknights at 8:00pm ET on CNN and is simulcast to an international audience on CNN International. Since April 2023, Anderson also hosts The Whole Story with Anderson Cooper, airing Sundays on CNN, which showcases character-driven stories, special interviews, profiles, and investigative deep dives from CNN anchors and correspondents.

Since the start of his career in 1992, Cooper has worked in nearly eighty countries and has covered nearly all major news events around the world, often reporting from the scene.

At CNN and 60 Minutes, Cooper has won a number of major journalism awards. He helped lead CNN's Peabody Award-winning coverage of Hurricane Katrina and duPont Award-winning coverage of the 2004 tsunami. Additionally, he has been awarded twenty Emmy Awards, including two for his coverage of the earthquake in Haiti, and an Edward R. Murrow Award.

Cooper's four books — Astor: The Rise and Fall of an American Fortune, Vanderbilt: The Rise and Fall of an America Dynasty, The Rainbow Comes and Goes: A Mother and Son on Life, Love, and Loss and Dispatches from the Edge: A Memoir of Wars, Disaster, and Survival — all topped The New York Times Bestseller List.

Cooper graduated from Yale University in 1989 with a Bachelor of Arts degree in political science. He also studied Vietnamese at the University of Hanoi.

Featured Sessions

08:00 AM – 09:30 AM

Role of Endocannabinoids in Early Brain Development and Consequences of Fetal Cannabinoid Exposure

- Addiction Psychiatry

Empowering Healers: The AMA Recovery Plan for America's Physicians - a Blueprint for Restoring Joy to the Practice of Medicine

- Physician Well-Being and Burnout

10:30 AM – NOON

The Leading Edge of Psilocybin Therapeutics: Psychiatric & Existential Distress in Advanced Cancer, Alcohol Use Disorder, and Major Depression

- Addiction Psychiatry

Overweight and Obesity in Persons Living with Mental Illness: Iatrogenic Contribution, Intrinsic Factors, Prevention and Treatment Opportunities

- Depressive Disorders

1:30 PM – 03:00 PM

Personality Pathology in Adolescents and Young people

- Personality Disorders

An Update on Acute Brain Failure: Everything You Need to Know About Delirium Pathophysiology, Diagnosis, Management and Sequelae

- Consultation-Liaison Psychiatry

3:45 PM – 05:15 PM

Big Data, AI and Precision Psychiatry: Advancing Prevention and Treatment

- Biological Psychiatry

Iterative Psychopharmacology: How to Apply Principles of Clinical Reasoning and Decision Analytics to Everyday Practice

- Psychopharmacology

Emerging Voices: DEIB, Innovation & Leadership

10:30 a.m. - Noon

Featuring

Bryan Stevenson

*Acclaimed Public Interest Lawyer and
New York Times Best-selling Author*

Convocation of Distinguished Fellows

5:30 p.m. - 6:30 p.m.

Featuring

**A Special Performance from
Broadway Events, Introduced
by Dr. Clark Johnsen**

Emerging Voices: DEIB, Innovation & Leadership

10:30 a.m. - Noon

Hall 3E

Bryan Stevenson is the founder and Executive Director of the Equal Justice Initiative, a human rights organization in Montgomery, Alabama. Under his leadership, EJI has won major legal challenges eliminating excessive and unfair sentencing, exonerating innocent death row prisoners, confronting abuse of the incarcerated and the mentally ill, and aiding children prosecuted as adults.

Mr. Stevenson has argued and won multiple cases at the United States Supreme Court, including a 2019 ruling protecting condemned prisoners who suffer from dementia and a landmark 2012 ruling that banned mandatory life-imprisonment-without-parole sentences for all children 17 or younger. Mr. Stevenson and his staff have won reversals, relief, or release from prison for over 140 wrongly condemned prisoners on death row and won relief for hundreds of others wrongly convicted or unfairly sentenced.

Mr. Stevenson has initiated major new anti-poverty and anti-discrimination efforts that challenge inequality in America. He led the creation of two highly acclaimed cultural sites which opened in 2018: the

Legacy Museum and the National Memorial for Peace and Justice. These new national landmark institutions chronicle the legacy of slavery, lynching, and racial segregation, and the connection to mass incarceration and contemporary issues of racial bias.

Mr. Stevenson's work has won him numerous awards including the prestigious MacArthur Foundation "Genius" Prize; the ABA Medal, the American Bar Association's highest honor; the National Medal of Liberty from the American Civil Liberties Union after he was nominated by United States Supreme Court Justice John Stevens; the Public Interest Lawyer of the Year by the National Association of Public Interest Lawyers; and the Olaf Palme Prize in Stockholm, Sweden for international human rights. In 2012, Mr. Stevenson received the American Psychiatric Association Human Rights Award.

Mr. Stevenson has received over 50 honorary doctoral degrees, including degrees from Harvard, Yale, Princeton, the University of Pennsylvania, and Oxford University. He is the author of the critically acclaimed New York Times bestseller, *Just Mercy*, which was named by Time Magazine as one of the 10 Best Books of Nonfiction for 2014 and has been awarded several honors, including the American Library Association's Carnegie Medal for best nonfiction book of 2015 and a 2015 NAACP Image Award. *Just Mercy* was adapted as a major motion picture and the film won the American Bar Association's 2020 Silver Gavel Award as well as four NAACP Image Awards. Mr. Stevenson is also the subject of the Emmy Award-winning HBO documentary *True Justice*. He is a graduate of the Harvard Law School and the Harvard School of Government.

Convocation of Distinguished Fellows

5:30 p.m. – 6:30 p.m.

Hall 3E

The Convocation will recognize APA members who have been awarded the designations of Distinguished Fellow, Distinguished Life Fellow, International Distinguished Fellow, Fellow, International Fellow, and Life Fellow of the American Psychiatric Association effective January 1, 2024. Additionally, the new class of 50-year Life Members will be honored for their commitment to the APA and 2024 Award Recipients will be announced. **This year's Convocation of Distinguished Fellows will also feature a musical experience with Broadway performers, kicked off by Clark Johnsen, D.O.** Curated by Broadway Events, the performance will feature four hit-Broadway songs that touch on mental health issues. Dr. Johnsen will then moderate a Q&A on the impact of music on mental health.

Featuring a musical experience with Broadway performers

Dr. Clark Johnsen is a Board-Certified psychiatrist and psychotherapist in private practice in Manhattan (American Board of Psychiatry and Neurology). He completed his psychiatry training at New York Presbyterian Hospital - Weill Cornell, where he was selected as a chief resident and is now a Clinical Assistant Professor of Psychiatry. He is currently a candidate in training at the Columbia Psychoanalytic Institute. Prior to his career in medicine and psychiatry, Dr. Johnsen had a successful Broadway career, performing in the original casts of *The Book of Mormon* and *The Addams Family* and performing in national touring productions of *Mary Poppins*, *Mamma Mia*, *42nd Street* and *High School Musical*.

* Those eligible for medallions may pick them up on-site prior to the Convocation at the Membership Desk.

Chair and APA CEO & Medical Director

TUESDAY, MAY 7

Facing Psychiatry's Present and Future with Hope

10:30 a.m. - Noon

Hall 3E

Join APA's CEO and Medical Director Saul Levin, M.D., M.P.A., for a one-of-a-kind session that will explore the impact of psychiatry and our current medical system during the current mental health crisis, from the systemic, doctor, and patient levels. Miriam E. Delphin-Rittmon, Ph.D., Assistant Secretary for Mental Health and Substance Use, will offer remarks on the current state of our national response to the mental health crisis. Psychiatrist and author Damon Tweedy, M.D. (*Black Man in a White Coat*, *Facing the Unseen: The Struggle to Center Mental Health in Medicine*) will talk about the doctor's perspective on the integration of mental health services throughout patient care. Finally, best-selling author and Emmy Award-winner Suleika Jaouad will join the conversation, to discuss hope, resilience, and creativity.

Miriam E. Delphin-Rittmon, Ph.D.

Dr. Miriam E. Delphin-Rittmon is currently Assistant Secretary for Mental Health and Substance Use in the U.S. Department of Health and Human Services and the Administrator of the Substance Abuse and Mental Health Services Administration (SAMHSA). She previously served as Commissioner of the Connecticut Department of Mental Health and Addiction Services (DMHAS) and served in this role for six years. Prior positions held at DMHAS include Deputy Commissioner, Senior Policy Advisor and Director of the department's Office of Multicultural Healthcare Equity. In her role as Commissioner, Dr. Delphin-Rittmon was committed to promoting recovery oriented, integrated, and culturally responsive services and systems that foster dignity, respect, and meaningful community inclusion.

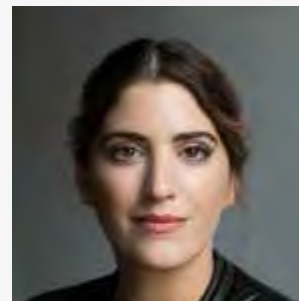

Damon Tweedy, M.D.

Dr. Damon Tweedy is the author of the New York Times bestseller *Black Man in a White Coat*, selected by TIME magazine as one of the Top 10 Non-Fiction books of 2015. He has published articles about race and medicine in the Journal of the American Medical Association (JAMA) and the New England Journal of Medicine (NEJM). His columns and op-eds have appeared in the New York Times, Washington Post, and various other print publications. This April, his new book, *Facing the Unseen: The Struggle to Center Mental Health in Medicine*, will be released.

Suleika Jaouad

An Emmy Award-winning journalist and celebrated TED speaker, Suleika Jaouad is the author of the instant New York Times bestselling memoir *Between Two Kingdoms*, which recounts her odyssey of healing and self-discovery after a diagnosis of leukemia at the age of twenty-two and given only a 35% chance of survival. During a four-year battle with cancer, Jaouad chronicled her illness in her widely read The New York Times "Life, Interrupted" column and video series.

Focus

The Journal of Lifelong Learning in Psychiatry

The Best Resource for

- Expert Guidance
- Lifelong Learning
- Maintenance of Certification

Focus, APA's quarterly clinical review journal, is designed for practicing psychiatrists to keep abreast of significant clinical knowledge and advances in the field through self-directed lifelong learning. **Focus** also provides an organized learning and self-assessment program with 44 hours of CME each year.

CONFERENCE
DISCOUNT!

\$50 OFF

SUBSCRIPTION PRICE

Valid May 4-7, 2024

An Annual Subscription to Focus Gives You:

- Reviews of four core areas in psychiatry, with each issue overseen by a Guest Editor clinical expert in that area working with fellow experts and advisors to deliver 1) new articles on the current state of practice, and 2) curation of the works that have shaped the thinking of the field. Upcoming topics include autism, bipolar disorder, substance use disorders, and women's mental health.
- Quizzes that allow you to earn up to five *AMA PRA Category 1 Credits*™ by completing CME questions for each issue—for a total of up to 20 CME credits per year.
- An annual 120-question **self-assessment exam** for an additional 24 CME credits and APBN MOC self-assessment credits that provides you with a comparison of your result against the group score of your peers.
- Online access to back issues (CME credits for issue quizzes available only for your subscription year).

Let's Create a Mentally Healthy Nation for All

Backed by the medical expertise of the APA and industry-leading strategic partners, the APA Foundation administers community-changing programs, public education campaigns, fellowship training, grants, and awards aimed at increasing mental health literacy, connecting individuals to needed care, and shifting attitudes toward mental health.

When you make a gift to the Foundation, you make an investment to improve the lives of those impacted by mental health conditions where you **live, learn, work, worship, and play.**

Show Your Support: Give securely online at apafdn.org/donate or text APAF2024 to 44321

Medical Student/Resident Poster Competition 120

Poster Schedule 121

Program listings for poster sessions is available in the APA Meetings App. For up-to-date session details, please download the APA Meetings App.

SUPPORTED BY

MEDICAL STUDENT/RESIDENT POSTER COMPETITION

The Medical Student/Resident Poster Competition is an APA Annual Meeting tradition that allows residents and medical students to attend the meeting, present their research, and be recognized for quality work.

Eligible participants submitted abstracts for posters in five categories:

- Clinical Case Studies
- Psychosocial and Biomedical Research Projects
- Patient-Oriented Care and Epidemiology
- Community Development and Service Projects, and
- Curriculum Development and Educational Projects.

Submitted abstracts were evaluated by a panel of judges from the Scientific Program Committee. All winners have already been selected and will be announced on **Sunday, May 5 at 10:00 AM** in the poster area. All are welcome to attend the award ceremony.

Poster Schedule

Explore 1,000 poster presentations on a variety of topics from Diversity and Health Equity to Global, Political, and Social Issues and more, in New York. Attendees can view each poster and interact directly with presenters. The poster program is divided into eight sessions based on submission type (e.g., Medical Student/Resident Poster Competition, International and New Research).

Please see below for the date and time of each poster session:

SATURDAY, MAY 4

8:00 a.m. – 9:30 a.m.

10:30 a.m. – 12:00 p.m.

1:30 p.m. – 3:00 p.m.

3:45 p.m. – 5:15 p.m.

SUNDAY, MAY 5

8:00 a.m. – 9:30 a.m.

10:30 a.m. – 12:00 p.m.

1:30 p.m. – 3:00 p.m.

3:45 p.m. – 5:15 p.m.

MONDAY, MAY 6

8:00 a.m. – 9:30 a.m.

1:30 p.m. – 3:00 p.m.

3:45 p.m. – 5:15 p.m.

Sponsors

The APA extends a special thank you to our sponsors for their support of various activities and services at the 2024 Annual Meeting.

Exhibition Information

Exhibit Hall Activities

Exhibit Halls 3AB, Javits Center

Discover the many activities taking place in the Exhibit Hall:

200+ Exhibitors

The APA exhibits program is an integral part of the overall Annual and provides an excellent opportunity to obtain the latest information on products and services related to the psychiatric profession.

Mental Health Innovation Zone

The Mental Health Innovation Zone is a tech conference within the APA Annual Meeting, bringing together innovators and entrepreneurs to explore what is coming next in mental health technology and the future of innovation in mental health care.

Poster Pavilion

Explore over 1,000 poster presentations on a variety of topics. Attendees can view each poster and interact directly with presenters. **Visit the new pavilion lounge area and coffee station.**

Mid-Day Mingles

Complimentary snacks are offered in the Exhibit Hall from 11:45 a.m. – 1:00 a.m., Sunday through Tuesday.

The Stage

The Stage is the place where attendees can relax and recharge electronic devices while taking advantage of informative non-CME presentations.

► Coffee & Conversations

Join thought leaders as they present 30-minute talks on engaging, timely topics. Coffee is served during the presentations.

Product Showcases

Sixty-minute sponsored non-CME presentations hosted by industry leaders. Boxed breakfast, lunch or lite fare will be provided (as approved by presenting company).

Mind & Body Pavilion

Focus on self-care and wellbeing in three areas; Calm, Create and Challenge. Relax with a 'calming' upper body massage from licensed massage therapists; 'Create' your own masterpiece in the painting area; 'Challenge' your colleagues in a game of giant Jenga, Connect Four or Corn Hole.

APA Art Exhibit

The Art Exhibit offers APA members and others an opportunity to display their original artwork in mixed media forms.

APA Central and Career Expo

Exhibitors located in the Career Expo area include government agencies, hospitals, locum tenens, mental health clinics, psychiatric facilities and recruiters seeking psychiatrists to fill open positions. Find APA JobCentral, the career hub for psychiatry and the ultimate recruitment tool for employers and job seekers alike, located in APA Central.

APA Bookstore

Offering the latest books, journals and online content. Discounts available to APA Members.

Concessions

A variety of food will be available for purchase located in the back of the Exhibit Hall.

Exhibition Information

Show Days & Times

SATURDAY, MAY 4

11:45 a.m. – 4:00 p.m.

Mid-Day Mingle

11:45 a.m. – 1:30 p.m.

SUNDAY, MAY 5

9:15 a.m. – 10:30 a.m.

11:45 a.m. – 4:00 p.m.

Mid-Day Mingle

11:45 a.m. – 1:30 p.m.

MONDAY, MAY 6

9:15 a.m. – 10:30 a.m.

11:45 a.m. – 4:00 p.m.

Mid-Day Mingle

11:45 a.m. – 1:30 p.m.

TUESDAY, MAY 7

9:15 a.m. – 1:30 p.m.

Mid-Day Mingle

11:45 a.m. – 1:30 p.m.

The Sunshine Act and How It Affects You

The Physician Payment Sunshine Act is a federal law that requires pharmaceutical and device manufacturers under certain circumstances to publicly report any complimentary gift, food, beverage, non-CME certified education or other item of value given to physicians. Some of the food, product theaters and trinkets that may be available to you at this meeting have been sponsored by companies that may be required to report your receipt of that gift. The APA recommends that you ask the person providing the complimentary item whether your name will be reported under the Act before accepting complimentary products or food so that you can make an independent and educated decision to accept or not accept it.

Product Showcases

Product Showcases are 60-minute, non-CME promotional programs supported by exhibiting pharmaceutical companies. Seating is limited to 225 on a first-come basis. Product Showcases will take place at two theaters located in the Exhibit Hall, #454 and #1938. A boxed breakfast, lunch or snack is provided (as approved by the presenting company). Look for signs announcing the presenter and topics next to each theater. Schedules will also be included in the Meeting App.

These sessions are covered by the Physician Payment Sunshine Act, and physicians attending will be required to provide their identifying information for public reports.

LOCATIONS/SCHEDULE

Exhibit Hall 3, A-B

Saturday – Tuesday

Product Theater 1
(Booth #454)

Product Theater 2
(Booth #1938)

SATURDAY, MAY 4

Noon – 1:00 pm

Product Theater 1 (Booth #454)
Supported by TEVA

UZEDY: An LAI With a Spectrum of Key Attributes for the Treatment of Schizophrenia.

Presenter:
Peter Weiden, MD

SUNDAY, MAY 5

1:00 pm – 2:00 pm

Product Theater 2 (Booth #1938)
Supported by Johnson & Johnson

Not All Depression is the same: Exploring Novel Pathways in Depression

Presenters:
Andrew J. Cutler, MD
Andreas Reif, MD
Michael E. Thase, MD

MONDAY, MAY 6

Noon – 1:00 p.m.

Product Theater 2 (Booth #1938)
Supported by Boehringer Ingelheim U.S.

Facing the Overlooked Symptoms of Schizophrenia: A Clinical Conversation About Cognitive and Negative Symptoms.

Presenters:
Christopher Correll, MD
Philip Harvey, PhD
Matthew Racher, CRPS

SUNDAY, MAY 5

9:30 a.m. – 10:30 am

Product Theater 2 (Booth #1938)
Supported by Boehringer Ingelheim U.S.

Digital Therapeutics for the Treatment of Mental Health Conditions

Presenters:
Dan Fulford, PhD
David Siegler, MD, FAPA

MONDAY, MAY 6

9:30 a.m. – 10:30 a.m.

Product Theater 1 (Booth #454)
Supported by Johnson & Johnson

Long-term Strategies in Treatment-Resistant Depression

Presenters:
Lisa Harding, MD
Vladimir, Maletic, MD

1:00 p.m. – 2:00 p.m.

Product Theater 1 (Booth #454)
Supported by TEVA

Does the EPS Diagnosis Lead to Anticholinergics Overuse?

Presenters:
Andrew Cutler, MD
Cherian Karunapuzha, MD

Noon – 1:00 pm

Product Theater 1 (Booth # 454)
Supported by Bristol Myers Squibb

A Focused Approach: Targeting Muscarinic Receptors in Schizophrenia.

Presenters:
Leslie Citrome, MD, MPH

Your voice is needed.

APA Congressional Advocacy Network (CAN)

Mental health is in the headlines every day—but when policymakers don't understand psychiatry's role and importance, they risk passing laws and regulations that hurt your patients and your practice.

APA CAN empowers member psychiatrists to connect with members of Congress and speak on behalf of the APA on mental health issues.

You are psychiatry's best advocate for parity enforcement, fair reimbursement, and a health care system that values mental health. Your voice is needed in these debates. You'll be provided the resources and guidance you need to be effective.

Are you in?

In support of improving patient care, the American Psychiatric Association is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The APA designates the Virtual Summer courses for a maximum of 4 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

2024 Virtual Summer Courses

Evaluation and Treatment of Sexual Dysfunctions

Accessible via APA Learning Center:

April 22, 2024

Live Session Date:

May 7, 2024 | 8am – 12pm EST

Course faculty:

Waguih William IsHak, MD

Course Structure:

4 hours of live (real time) training. Please note this course will take place on Tuesday, May 7, during the APA Annual Meeting.

Learning Objectives:

- » Acquire practical knowledge and skills in evaluation of Sexual Dysfunctions
- » Acquire practical knowledge and skills in treatment of Sexual Dysfunctions
- » Apply gained knowledge/ skills to real-world examples of Sexual Dysfunctions

Abstract:

The course is designed to meet the needs of psychiatrists who are interested in acquiring current knowledge about the evaluation and treatment of sexual disorders in everyday psychiatric practice. The participants will acquire knowledge and skills in taking an adequate sexual history and diagnostic formulation. The epidemiology, diagnostic criteria, and treatment of different sexual disorders will be presented including the impact of current psychiatric and non-psychiatric medications on sexual functioning. Treatment of medication induced sexual dysfunction (especially the management of SSRI-induced sexual dysfunction) as well as sexual disorders secondary to medical conditions will be presented. Treatment interventions for sexual disorders will be discussed including psychotherapeutic and pharmacological treatments. Clinical application of presented material will be provided using real world case examples brought by the presenter and participants. Methods of teaching will include lectures, clinical vignettes, and group discussions.

What does the General Practitioner Need to Know about Forensic Psychiatry?

Accessible via APA Learning Center:

May 20, 2024

Live Session Date:

June 5, 2024 | 6:00 – 7:00pm EST

Course faculty:

George Annas, JD, MPH, AB, Tobias Wasser, MD, Jennifer Piel, MD, JD

Course Structure:

3 hours of asynchronous learning and 1 hour of live

Learning Objectives

- » Provide effective testimony in court as a treating psychiatrist and understand subpoenas, depositions, and witness qualifications.
- » Perform accurate forensic-related assessments that arise in general practice (Treatment Over Objection, hospital retention, AOT/IOC).
- » Write effective reports for court submission and improve clinical documentation.
- » Achieve improved skill in dealing with forensic-related issues that occur in general practice, including “dangerousness” assessments, duty to warn/protect, and ethical issues that arise in practice.

Abstract:

Regardless of specialty, psychiatrists often engage with the legal system. For example, it is common for inpatient practitioners to petition the courts for treatment over objection and testify, in support of the petition. Psychiatrists are also often concerned about assessing risk properly, ethically, and in ways that reduce liability risk. Many in such positions do not have specialized training in forensic psychiatry, and will not enter into formal training, yet need more assistance to improve their skills. This course is designed to address what psychiatrists in general practice need to know about engaging with the legal system effectively. Through case presentations, interactive sessions, and didactics, the participants will learn the basic practical skill and knowledge needed to better interact with the courts in these matters. Some of the topics addressed will include Treatment Over Objection, hospital retention, Risk Assessment, report writing and how to testify effectively in court. At the end of this course the participants will acquire the skills required for effective forensic report writing, become more confident in providing testimony, and achieve a better knowledge and understanding of how to navigate legal matters related to treatment.

Applying Quality Improvement Methods

Accessible via APA Learning Center:

May 20, 2024

Live Session Date:

June 11, 2024 | 5:00 – 6:30pm EST

Course faculty:

Jennifer Erickson, DO, Anna Ratzliff, MD, PhD, Amy Bauer, MD, MS, Denise Chang, MD
Jessica Whitfield, MD, MPH

Course Structure:

2.5 hours of asynchronous learning and 1.5 hour of live

Learning Objectives

- » Identify 3 key elements of the Model for Improvement
- » Write a SMART Aim statement
- » Understand the importance of a clear operational definition for a measure
- » Establish a plan for practice improvement using PDSA cycles to test small, rapid changes in the participant's own practice setting
- » Recognize how to apply the Model for Improvement to implement principles of Collaborative Care

Abstract:

Recent years have increasingly emphasized systems-based factors for healthcare quality and equity. Relative to general medicine, Psychiatry has been slower to adopt quality improvement (QI) methods. Nevertheless, there is increasing awareness of the potential for data-driven practice improvement to benefit mental health outcomes. Although QI is now an ACGME requirement for psychiatrists during residency training, practicing psychiatrists have few opportunities to develop skills in QI. These skills are critical as psychiatrists transition to practice and must implement continuous quality improvement. QI is a central element in the success of the Collaborative Care model, which has been shown in over 90 randomized trials to double the effectiveness of care for common mental health conditions, including depression and anxiety, as well as more complex conditions, including bipolar disorder and post-traumatic stress disorder. Moreover, QI methods can be utilized successfully to implement principles of Collaborative Care across psychiatric practice settings regardless of whether or not the Collaborative Care model has been implemented. This course will introduce QI for psychiatrists across the spectrum of career development and provide them experience in writing Aim statements, writing and testing operational definitions of measurements, practicing Plan-Do-Study-Act cycles in a simulation activity, and creating a plan for their practice improvement. Participants will learn the essentials of the Model for Improvement. Dr. Bauer will introduce the session and provide an overview of QI. Participants will then engage in a series of PDSA cycles in a simulation activity designed to provide an interactive real-time experience with generating and testing an operationalized measure in a mock clinical setting.

Religion and Spirituality as a Determinant of Mental Health: Assessment and Integration into Clinical Practice

Accessible via APA Learning Center: June 3, 2024

Live Session Date: June 25, 2024 | 1:00-5:00pm EST

Course faculty:

Alexander Moreira-Almeida, MD, PhD, Francis Lu, MD, Dilip Jeste, MD

Wai Lun Alan Fung, MD, SC.D, John Peteet, MD

Course structure:

4 hours of live (real time) training.

Learning Objectives

- » • Identify positive and negative impacts of religion/spirituality on patients' mental health and treatment
- » • Utilize the DSM-5-TR Outline for Cultural Formulation and Cultural Formulation Interview to assess religious and spiritual issues
- » • Describe opportunities and ethical guidelines for enlisting religious/spiritual resources to enhance the goals of treatment
- » • Identify ways to promote eudaimonic well-being and support a patient's efforts to bring their habits into accord with their goals and values
- » • Implement strategies for a collaboration between psychiatrists and leaders/members of faith communities to enhance mental health and care.

Abstract:

A robust research body has shown that religion/spirituality (R/S) is a powerful determinant of mental health, but many clinicians are unfamiliar with the contributions of R/S to the health of people with mental illnesses and lack the skills to needed integrate R/S into clinical practice. The course will start by presenting the evidence and mechanisms for the impact of R/S on mental health that is evidence-based, which can contribute to ethically sound bio-psycho-socio-spiritual patient-centered care. Patients' religious/spiritual convictions, practices and communities can be important resources in their recovery. But religiously reinforced stigma, and spiritual concerns such as being punished or abandoned by God can put them at greater risk. Using case examples, participants will explore practical and ethical aspects of the psychiatrist's role in addressing these positive and negative influences of R/S during the process of psychiatric assessment, formulation, and treatment. The DSM-5 TR Outline for Cultural Formulation and Cultural Formulation Interview including the Supplementary Module on Religious, Spiritual, and Moral Traditions will be reviewed to provide psychiatrists with clinical tools to assess identity, cultural concepts of distress, stressors, and supports, and cultural features of the relationship between the psychiatrist and the patient.

Unacceptable and Taboo Thoughts in OCD: Comprehensive Evaluation, Pharmacotherapy, and Evidence-Based Psychotherapy

Accessible via APA Learning Center:

June 27, 2024

Live Session Date:

July 18 | 12:00 EST

Course faculty:

Sharon Batista, MD, Monnica Williams, PhD, Chad Wetterneck, PhD

Course structure:

3 hours of asynchronous learning and 1 hour of live

Learning Objectives

- » Understand the prevalence and impact of stigmatized OCD subtypes including sufferers with taboo or unacceptable obsessions.
- » Review evidence-based pharmacologic approaches to treatment for persons suffering from OCD including augmentation strategies when an initial treatment is only partially effective.
- » Differentiate unacceptable and taboo obsessions in OCD

- from other stigmatized concerns and conditions, including forming a differential diagnosis and rule-outs to consider.
- » Explain ways to improve efficacy of psychotherapy for taboo themes in persons who suffer from OCD and address treatment resistance.
- » Highlight ways to craft individualized treatment plans to address distress associated with unacceptable thoughts in OCD.

Abstract:

This 4-hour course aims to provide a comprehensive exploration of diagnosing and treating persons suffering from OCD who experience unacceptable or taboo thoughts. Persons with these types of thoughts often experience stigma and are fearful of disclosing their thoughts for fear of rejection or judgement by others. Some common examples of taboo obsessional content include fears of having molested a child, fears related to sexual identity, fears associated with sexual orientation or being attracted to the 'wrong' gender, fears of engaging in inappropriate sexual activity, fears of being a pedophile, fears of committing a violent act, perinatal concerns, intrusive sexual images, fears of committing a religiously forbidden act, and fears of impregnation. Due to the nature of these thoughts and that their disclosure can result in unintended negative consequences for OCD sufferers, such as involvement of law enforcement, child protective services, or exclusion from their community, these symptoms are often not disclosed and commonly go unaddressed. This symptom cluster is commonly misdiagnosed as well because clinicians might conflate the thoughts with risk for perpetrating illegal or dangerous actions.

Registration and Access to Courses

Visit the Education Center to learn more about registering for a Summer Virtual Course.

Summer Virtual Courses will be released during the weeks following the Annual Meeting. Please see course descriptions for additional information regarding release dates and Live Skills Trainings.

How to Claim Credit

Participants who wish to earn *4.0 AMA PRA Category 1 Credit™* or a certificate of participation may do so by completing all sections of the course including the live learning sessions and course evaluations. After evaluating the program, course participants will be provided with an opportunity to claim hours of participation and print an official CME certificate (physicians) or certificate of participation (other disciplines) showing the event date and hours earned.

PSYCHPRO

Shaping the Future of Quality Mental Health Care

PsychPRO: Your Comprehensive Mental Health Clinical Data Registry

Created by the American Psychiatric Association, PsychPRO helps healthcare organizations measure mental health care quality and improve patient outcomes.

The drumbeat of value-based care and improved quality outcomes is growing louder and echoing through every part of health care.

The inherently nuanced nature of mental health makes it challenging to evaluate clinician performance or patient progress objectively.

How can you demonstrate quality and provide advanced, evidence-based care that leads to better outcomes while maintaining reimbursement levels and retaining clinicians?

The path to clear mental health care standards is *finally* here.

PsychPRO retrieves, aggregates, and analyzes EHR and other application data to uncover best practices, inform providers, and generate reliable, accurate benchmarks.

Evaluate or compare performance in-house or against other high-quality organizations with:

- ✓ User-Friendly Dashboards
- ✓ Efficient Workflows
- ✓ Easy Tracking
- ✓ Insightful Visualizations

A Continually-Evolving, Holistic View of Mental Health Quality Data

PsychPRO continuously learns by incorporating and analyzing clinical data from a broad spectrum of mental health professionals.

We discover and refine best practices and identify optimal care standards to measure and evaluate patient progress, making information easily accessible.

Measure Care Against Clear Standards

Empower clinicians to bring more objectivity to mental health with CMS Quality Payment Program (QPP) measures and easy comparison to multiple benchmarks.

Make Value-Based Care Work for Mental Health

Get automatic calculations for specific measures and objective patient outcomes so you can demonstrate quality and get paid based on effective treatment.

Help Shape the Future of Mental Health Care

Join our community to help expand and accelerate our mission of creating meaningful, evidence-based standards guided by clinical authorities.

An Advanced CMS-Qualified Clinical Data Registry, Designed for You

EHR Integration • Patient Portal & Applications Integration • Psychiatric Data Aggregation • Data Integrity & Oversight • HIPAA Compliance

Built on an advanced technical platform, PsychPRO's comprehensive capabilities create an authoritative, actionable resource for mental health organizations and practitioners.

PsychPRO Features

- ✓ User Management
- ✓ Performance Dashboards & Reporting
- ✓ Patient Records
- ✓ Patient-Reported Outcome Measures
- ✓ Continuing Certification & Educational Support
- ✓ MIPS Explorer
- ✓ Standard File Validator
