

Focus

The Journal of Lifelong Learning in Psychiatry

The Best Resource for

- Expert Guidance
- Lifelong Learning
- Maintenance of Certification

Focus, APA's quarterly clinical review journal, is designed for practicing psychiatrists to keep abreast of significant clinical knowledge and advances in the field through self-directed lifelong learning. **Focus** also provides an organized learning and self-assessment program with 44 hours of CME each year.

An Annual Subscription to Focus Gives You:

- Reviews of four core areas in psychiatry, with each issue overseen by a Guest Editor clinical expert in that area working with fellow experts and advisors to deliver 1) new articles on the current state of practice, and 2) curation of the works that have shaped the thinking of the field. Upcoming topics include autism, bipolar disorder, substance use disorders, and women's mental health.
- Quizzes that allow you to earn up to five *AMA PRA Category 1 Credits*™ by completing CME questions for each issue—for a total of up to 20 CME credits per year.
- An annual 120-question **self-assessment exam** for an additional 24 CME credits and APBN MOC self-assessment credits that provides you with a comparison of your result against the group score of your peers.
- Online access to back issues (CME credits for issue quizzes available only for your subscription year).
