

# Coverage For Psychiatric Collaborative Care Management (CoCM) Codes

(CPT CODES 99492-99494)\*\*

The American Psychiatric Association has compiled an interim list of payers who have either indicated they have approved coverage for psychiatric collaborative care management (CoCM) codes (**CPT codes 99492-99494**) or for whom we have confirmation that a paid claim(s) has occurred. This list has been compiled based on reports from the field. Coverage varies by individual insurance plan so it is imperative that practices verify coverage on a payer-by-payer basis. Please contact the APA's Practice Management Helpline(800-343-4671 or [practicemanagement@psych.org](mailto:practicemanagement@psych.org)) with any corrections or omissions.
